<Significant Events during the 23rd Fiscal Period>

INV issued new investment units through a global public offering in the fiscal period ending December 2014 (23rd fiscal period). INV used the funds procured from the global offering (the "Public Offering") along with additional borrowing and the refinancing of existing lending from leading Japanese and global banks (the "Refinancing") to acquire 18 extended stay/limited service hotels (the "18 Hotels") (hereinafter together with the Public Offering and the Refinancing, the "Transactions").

The Public Offering, accompanying acquisition of the 18 Hotels, and the Refinancing were implemented in line with the portfolio repositioning and refinancing completed in May 2014, to further enhance INV's unitholder value under the support of the sponsor, Fortress Group.

All three “megabanks” participating as lenders in the New Syndicate Loan (B) obtained in May 2014, namely Sumitomo Mitsui Banking Corporation, The Bank of Tokyo-Mitsubishi UFJ, Ltd. and Mizuho Bank, Ltd. will continue to participate as lenders in the New Syndicate Loan (C), which will lengthen the borrowing period, further reduce borrowing costs, enhance the debt service coverage ratio, strengthen lender formation and secure greater financing availability and flexibility. As a result, the balance of interest-bearing debt is JPY 67,260 million and average interest rate is 1.09% after the implementation of refinancing as of July 17, 2014.

3) Acquisition of Assets

INV acquired the 18 Hotels, which exhibit stable revenue and have a high potential to achieve further revenue growth, on July 17, 2014. Given the expected further increase in hotel users in Japan, the low level of new supply of hotels in Japan, the high occupancy rates of our existing hotel properties and the increasing market share of limited service/extended stay hotels in particular, the Asset Manager expects hotels to have a stable operation and believes that the operation will expand in the future. The Asset Manager has constructed a portfolio that focusses on both improved stability and future growth, and therefore decided to position the residential properties and hotels as core assets and main target of future investment targets for INV.

As a result, the number of properties held by INV after the acquisition of 18 Hotels increased to 91 properties (63 residences, 20 hotels, 7 offices and commercial facilities, and 1 parking lot), for a total acquisition value of JPY 117,927 million and total leasable area of 224,574.36m².

4) Business Outlook

Financial results for the 23rd fiscal period are expected as follows.

The 23rd fiscal period ending December 31, 2014 (from July 1, 2014 to December 31, 2014)

Operating Revenues	JPY 4,323 Million
Operating Income	JPY 2,429 Million
Ordinary Income	JPY 1,602 Million
Net Income	JPY 1,601 Million
Earnings per Unit	JPY 600
Reversal of Surplus per Unit	JPY 0
Distribution per Unit (Excluding excess profit distribution per unit)	JPY 600
Excess Profit Distribution per Unit	JPY 0

INV plans to distribute all of the net income except for a fractional portion in which Distribution Per Unit is less than JPY 1, using the proceeds from net income for the 23rd fiscal period.

Based on the above, INV plans to distribute JPY 1,601 million in total, (Distribution Per Unit: JPY 600) for the 23rd fiscal period ending December 2014. The total distribution amount exceeds 90% of the amount of distributable income, and therefore meets the tax conduit requirement. The balance of the surplus gained from negative goodwill resulting from the merger on February, 2010 (the "Surplus") after the distribution for the 23rd fiscal period will remain JPY 73 million.

(Note 1) Due to the Offering, the number of investment units issued and outstanding at the end of the 23rd fiscal period is 2,668,686 units.

(Note 2) One of the tax conduit requirements is the dividend payment requirement, in which investment corporations are required to distribute at least 90% of their distributable income (Note 3).

(Note 3) Amount of distributable income for the next fiscal period (JPY 1,661 million (*)) × 90% = JPY 1,495 million

(*) Distributable income for the next fiscal period (JPY 1,661 million) = Net income before income tax for the next fiscal period (JPY 1,602 million) + Amortization of negative goodwill for each fiscal period (JPY 59 million)**)

) Amortization of negative goodwill for each fiscal period (JPY 59 million) = Gain on negative goodwill accrued upon the merger (JPY 11,843 million) × (Number of months of fiscal period ÷ 1,200 months ())

(***) 1,200 months = 100 years × 12 months (1 year)

For the pre-conditions and assumptions underlying the business outlook for the 23rd fiscal period, please see "Pre-Conditions and Assumptions Underlying Forecasted Performance for the 23rd Fiscal Period (from July 1, 2014 to December 31, 2014)".

Also, this forecast is not a guarantee of the distribution amount.

<For Reference>

As mentioned above, INV issued new investment units in a global public offering (the “Public Offering”) and a third-party allotment in connection with an over-allotment option granted in relation to the public offering (the “Over-Allotment Option” and, together with the Public Offering, the “Offering”). Using the proceeds from the Offering and refinancing of loans (the “Refinancing”), INV acquired 18 hotels (hereinafter together with the Offering and the Refinancing, the “Transactions”).

For ease of reference, figures for earnings per unit, distribution per unit and simulated earnings per unit are summarized in the table below.

Forecasts for simulated earnings per unit are shown for reference purposes, and indicate simulated earnings per unit after excluding one-time costs associated with the Transactions and treating the Acquisitions, the Offerings and the Refinancing as if they had taken place prior to the beginning of fiscal period ended June 2014.

The simulated earnings per unit is purely a simulation intended to describe the effect of the transactions, etc. described above and is neither a forecast nor prospect relating to INV’s earnings or distribution per unit for a given operating period.

<Simulated Earnings per Unit>

	Net Income per Unit (Note 1)	Distribution per Unit (DPU)	Simulated Earnings per Unit
22nd fiscal period	JPY 573	JPY 573	JPY 600
23rd fiscal period (forecast)	JPY 600	JPY 600	JPY 628

(Note 1) Net Income per Unit in the 22nd fiscal period is calculated assuming that the number of investment units issued and outstanding is 1,573,179 units, and Net Income per Unit in the 23rd fiscal period is calculated assuming that the number of investment units issued and outstanding is 2,668,686 units.

(Note 2) Figures in the above table are rounded down to the indicated amount.

Simulated Earnings per Unit refer to earnings per unit calculated by applying the simulated adjustment below, eliminating the effects of such factors as one-time expenses and treating the

two hotels acquired in May, 2014 and the 18 hotels acquired in July, 2014 as if they were acquired prior to the beginning of 22nd fiscal period.

Simulated adjustment is based on the total of the following adjustments:

- (i) Elimination of the gains from the sale of seven senior housing properties as of May, 2014.
- (ii) The impact based on the assumption that the repositioning of the portfolio through the sale of seven senior housing properties and the acquisition of two hotels in May, 2014, and the acquisition of the 18 hotels in July, 2014 were implemented prior to beginning of 22nd fiscal period.
- (iii) The impact based on the assumption that the refinancing implemented in May, 2014 and July, 2014 were implemented prior to beginning of the 22nd fiscal period.
- (iv) The tax amount based on the assumption that property taxes and city planning taxes will be expensed at the beginning of the 22nd fiscal period on the two hotels acquired in May 2014 and 18 hotels acquired in July, 2014.
- (v) Elimination of various one-time charges in connection with the implementation of the Transactions.
- (vi) With respect to both the 22nd fiscal period and the 23rd fiscal period, the calculation is based on the assumption that a total of 1,095,507 units (1,040,000 units through the Public Offering and 55,507 units through the Over Allotment Option) were issued at the beginning of the 22nd fiscal period and the number of investment unites issued and outstanding is 2,668,686 units.

The simulated earnings per unit for the 22nd fiscal period and the 23rd fiscal period is purely a simulation intended to calculate the normalized earnings per unit taking into consideration the effect of the transactions, etc. described above and is neither a forecast nor prospect relating to INV's earnings or distribution per unit for a given operating period. Accordingly, there is no guarantee that the simulated earnings per unit will ever be realized for any future operating period, and INV is not obligated to revise any of the simulated figures regardless of any changes in circumstances that may affect the above simulation.
