Item	Assumptions
	<p>With respect to the distribution for the fiscal period ending June 30, 2016, INV expects to distribute an aggregate amount of JPY 3,688 million (distribution per unit: JPY 1,155) based on the assumption that the earnings for the fiscal period ending June 2016 (JPY 3,672 million) will be used as funds and excess profit distribution (JPY 15 million) will be made.</p> <p>With respect to the distribution for the fiscal period ending December 31, 2016, INV expects to distribute an aggregate amount of JPY 4,423 million (distribution per unit: JPY 1,385) based on the assumption that the earnings for the fiscal period ending December 2016 (JPY 4,408 million) will be used as funds and excess profit distribution (JPY 15 million) will be made.</p>
Excess profit distribution per unit	<p>INV believes maintaining the stability of cash distributions over the medium term is one of the most important factors in determining the amount of distribution for a given fiscal period, and therefore, in cases where significant expenses are to be recorded in connection with, among other things, the acquisition of assets or the raising of capital, leading to a significant decrease in earnings, INV has decided to make distributions in excess of profits in order to stabilize distributions and be more reflective of INV's simulated earnings.</p> <p>INV will record a difference between tax and accounting treatment as distribution of the reserve for temporary difference adjustments and make distributions of the equivalent amount in accordance with the tax revision in 2016 for the fiscal period ending June 2016 and fiscal period ending December 2016.</p> <p>Excess profit distribution per unit (26th Fiscal Period) JPY 5</p> <p>Excess profit distribution per unit (27th Fiscal Period) JPY 5</p>
Other	<p>INV assumes there will be no amendments to applicable laws and regulations, the taxation system, accounting standards and other regulations that would affect the foregoing forecasts.</p> <p>In addition, INV assumes there will be no unforeseen material changes in general economic trends, real estate market conditions and other trends and conditions.</p>
