

Invincible Investment
Corporation

**Audited Financial Statements
for the 19th Fiscal Period
(from July 1, 2012 to December 31, 2012)**

Greetings from Naoki Shibatsuji, Executive Director of Invincible Investment Corporation and President & CEO of Consonant Investment Management Co., Ltd.

It gives me much pleasure to take this opportunity to express my sincere gratitude to all investors of Invincible Investment Corporation (INV) for your ongoing support.

We hereby provide you with a report of the results of INV's financial results and operational condition for the 19th period (covering the period from July 1, 2012 to December 31, 2012).

With the objective of providing unitholders with stable cash flows over the medium to long term, we have taken various measures for securing a stable financial foundation and achieving our growth strategy, such as the merger, the invitation of a new sponsor, a capital increase via third party allotment, debt refinancing, and implementation of measures for internal growth.

During the 19th period we not only achieved internal growth but also, for the first time in four years since September 2008, external growth. Using the proceeds of JPY 12,510 million raised from new borrowings and the refinancing of existing loans, together with JPY 1,533 million in funds on hand, we acquired 24 new residential properties (for an acquisition price of JPY 14,043 million).

Additionally, a general meeting of unitholders was held in November 2012, at which our articles of incorporation were revised, reducing asset management fees and making it possible to set reasonable distribution even in the case the conduit requirements (Note) are not met.

As a result of these activities, for the 19th period operating revenues totaled JPY 2476 million, a JPY 299 million increase over the last fiscal period, operating income totaled JPY 1,084, or a JPY 190 million increase, ordinary income was JPY 114 million, or a JPY 11 million decrease, and net income was at JPY 114 million, a decrease of JPY 13 million, while distribution per unit was JPY 117, a decrease of JPY 83 per unit from the last fiscal period.

With respect to the amount of distribution per unit, due to the recognition of one-time expenses associated with the acquisition of new properties, including loan-related costs JPY 120 million, the amount of JPY 117 per unit was below the previous level of approximately JPY 200 per unit.

However, in terms of contribution, distribution per unit from net income was JPY 85 (as opposed to JPY 95 for the previous fiscal period), and the distribution per unit from reversal of surplus resulting from the negative goodwill attributable to the merger was JPY 32 (as opposed to JPY 105 for the previous fiscal period). Thus, on a net income basis the decrease compared to the previous fiscal period was only JPY 10 per unit.

INV believes that through its new acquisitions of 24 residential properties, it has substantially expanded the size of its assets and established a strong revenue base. Commencing with the next fiscal period (ending June 30, 2013), we expect it will be possible to realize the same level of distribution as in prior periods over the medium to long term without utilizing the surplus.

From this perspective, we believe the activities undertaken during the 20th period are of great significance for INV.

In terms of measures going forward, we expect to continue to focus on internal growth, with leasing strategies for not only occupancy rates but also rent increases. In addition, we will continue to consider additional reductions in costs, which are already at a low level. In addition, to prepare for future refinancing of borrowings, we will seek to increase the asset value of properties for collateral, strengthen our existing relations with financial institutions and forge new relations with other financial institutions.

We look forward to receiving the continued support of all of our unitholders.

Naoki Shibatsuji
Executive Director, Invincible Investment Corporation
President and CEO, Consonant Investment Management Co. Ltd.

(Note) Unlike normal operating companies, investment corporations are granted a deduction for corporation tax for profit that is distributed to unitholders, so long as certain conduit requirements are satisfied. Thus, taxes are applicable only for the unitholders that receive such distributions, eliminating double taxation. One of the conduit requirements is called the "payment distribution requirement," which requires distribution of 90% or more of the distributable profit. INV has losses carried forward for tax purposes of JPY 20,561 million (as of December 31, 2012) and thus expects that even if the conduit requirement is not met, for a certain period, no corporate tax will be payable.

Fixed Distributions	The 19th fiscal period (the fiscal period ended December 2012)	Per investment unit JPY 117
Forecast Distributions	The 20th fiscal period (the fiscal period ending June 2013)	Per investment unit JPY 200

Independent Auditor's Report

The Board of Directors
Invincible Investment Corporation

We have audited the accompanying financial statements of Invincible Investment Corporation, which comprise the balance sheets as at June 30, 2011, December 31, 2011, June 30, 2012, December 31, 2012, June 30, 2013, and December 31, 2013, and the statements of operations and retained earnings, changes in net assets, and cash flows for the six-month periods then ended and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in Japan, and for designing and operating such internal control as management determines is necessary to enable the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. The purpose of an audit of the financial statements is not to express an opinion on the effectiveness of the entity's internal control, but in making these risk assessments the auditor considers internal controls relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Invincible Investment Corporation as at June 30, 2011, December 31, 2011, June 30, 2012, December 31, 2012, June 30, 2013, and December 31, 2013, and its financial performance and cash flows for the six-month periods then ended in conformity with accounting principles generally accepted in Japan.

Convenience Translation

We have reviewed the translation of these financial statements into U.S. dollars, presented for the convenience of readers, and, in our opinion, the accompanying financial statements have been properly translated on the basis described in Note 4.

INVINCIBLE INVESTMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS

As of and for the six months ended June 30, 2011, December 31, 2011, June 30, 2012,
December 31, 2012, June 30, 2013 and December 31, 2013

1. Organization

Invincible Investment Corporation (the "Company"), a real estate investment corporation, was incorporated on January 18, 2002, under the Act on Investment Trusts and Investment Corporations of Japan (the "Investment Trust Act") with initial capital of ¥200 million.

The Company is externally managed by a registered asset management company, Consonant Investment Management Co., Ltd. (the "Asset Manager"). The Asset Manager is currently owned 100% by Calliope Godo Kaisha (Calliope). The Company was formed to invest primarily in properties in Japan.

On May 17, 2004, the Company raised ¥3,377,250 thousand through an initial public offering of 9,000 investment units. As a "comprehensive investment REIT focusing on the Tokyo metropolitan area and on residential properties," The Company was listed on the Osaka Securities Exchange in May 2004.

On February 7, 2005, the Company completed its second public offering of 10,650 investment units at a price of ¥369,734 per unit in connection with a public offering in Japan.

On July 31, 2006, the Company completed its third public offering of 25,000 investment units at a price of ¥332,045 per unit in connection with a public offering in Japan. The Company was listed on the J-REIT market of the Tokyo Stock Exchange in August 2006 (in order to focus trading on one securities exchange and reduce administrative tasks and costs accompanying a duplicate listing. The Company delisted from the Osaka Securities Exchange on October 6, 2007).

Effective on February 1, 2010, the Company executed a five-to-one unit split and 215,596 investment units were issued in connection with the unit split. Effective on the same day, the Company also merged with LCP Investment Corporation (LCP) and allocated 367,200 investment units at a ratio of 4 units (post-unit split) of the Company per one investment unit of LCP. As a result, investment units issued and outstanding were 636,695 units as of February 1, 2010.

On July 29, 2011, the Company completed a third party allotment of 711,597 investment units at a price of ¥9,837 per unit.

On December 20, 2013, the Company completed a third party allotment of 224,887 investment units at a price of ¥13,340 per unit.

2. Summary of Significant Accounting Policies

(a) Basis of Presentation

The Company maintains its accounts and records in conformity with accounting principles and practices generally accepted in Japan ("Japanese GAAP"), including provisions set forth in the Investment Trust Act, the Companies Act of Japan, the Financial Instruments and Exchange Act of Japan, and other related regulations, which are different in certain respects from the application and disclosure requirements of International Financial Reporting Standards or accounting principles generally accepted in the United States of America.

The financial statements are prepared based on the Japanese audited financial statements of the Company, which were prepared in accordance with Japanese GAAP and filed with the Kanto Local Finance Bureau as required by the Financial Instruments and Exchange Act of Japan. In preparing the accompanying financial statements, certain information in the notes has been added and certain reclassifications have been made from the financial statements issued domestically for the convenience of the readers outside Japan.

The financial statements are not intended to present the financial position and the results of operations in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Japan.

The Company's fiscal period is a six-month period, which ends at the end of June and December of each year.

Amounts less than ¥1 thousand and US\$ 1 thousand have been rounded down. As a result, the totals shown in the financial statements and notes thereto do not necessarily agree with the sum of the individual amounts.

The Company does not prepare consolidated financial statements as it has no subsidiaries.

(b) Cash and Cash Equivalents

Cash and cash equivalents consist of cash, demand deposits, and short-term investments which are highly liquid and readily convertible to cash, have a low risk of price fluctuation, and mature within three months from the date of acquisition.

(c) Property and Equipment

Property and equipment are recorded at cost. Depreciation of property and equipment, except for land, is calculated on a straight-line basis over the estimated useful lives of the assets as stated below:

	For the six months ended					
	June 30,	December 31,	June 30,	December 31,	June 30,	December 31,

(d) Intangible Assets

Intangible assets are amortized on a straight-line basis.

(e) Long-term Prepaid Expenses

Long-term prepaid expenses are amortized on a straight-line basis.

(f) Investment Unit Issuance Costs

Investment unit issuance costs are recorded as expenses when incurred.

(g) Allowance for Doubtful Accounts

Allowance for doubtful accounts is provided based on past experience for normal receivables and an valuation of any receivables from companies and individuals with financial difficulties.

(h) Impairment of Fixed Assets

An assessment for impairment is carried out on an asset or group of assets, such as fixed assets, intangible assets and investments, whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. If the asset or group of assets is deemed to be impaired, an impairment loss is recognized for the difference between the carrying amount and the recoverable value of the asset or group of assets using the discounted cash flow model.

(i) Accounting Treatment of Trust Beneficiary Interests in Real Estate Trusts

For trust beneficiary interests in real estate trusts, which are commonly utilized to obtain ownership in investment properties in Japan and through which the Company holds all of its real estate, all assets and liabilities with respect to assets in trust, as well as all income generated and expenses incurred with respect to assets in trust, are recorded in the relevant accounts of the balance sheet and statement of operations and retained earnings of the Company in proportion to the percentage that such trust beneficiary interest represents. Certain material accounts with respect to assets and liabilities in trust are presented separately from other accounts in the balance sheets of the Company.

(j) Income Taxes

Deferred tax assets and liabilities are computed based on the temporary differences between the financial statement and income tax basis of assets and liabilities using the applicable statutory tax rate.

(k) Consumption Taxes

Consumption taxes withheld and consumption taxes paid are not included in the statements of operations and retained earnings. Consumption taxes paid are generally offset against the balance of consumption taxes withheld. As such, the excess of payments over amounts withheld are included in current assets and the excess of amounts withheld over payments are included in current liabilities as the case may be.

(l) Taxes on Property and Equipment

Property and equipment are subject to various taxes, such as property taxes and urban planning taxes on an annual basis. An owner of a property is registered in the record maintained by the local government in each jurisdiction, and such taxes are imposed on the owner registered in the record as of January 1 of each year based on the assessment made by the local government.

Under the above tax rules, a seller of a property at the time of disposal is liable for these taxes on the property from the date of disposal to the end of the calendar year in which the property is disposed. The seller, however, is reimbursed by the purchaser for these accrued tax liabilities and the amount of settlement reflects this adjustment. For the purchaser, a portion of such taxes calculated from the acquisition date to the end of the calendar year is capitalized as a cost of the property in accordance with Japanese GAAP. In subsequent calendar years, half of such taxes on property and equipment for each calendar year are charged as operating expenses in each fiscal period.

Taxes on property and equipment capitalized as part of the acquisition cost of properties amounted to ¥16,270 thousand for the six months ended December 31, 2012. No taxes on property and equipment were capitalized for the each of the six months ended June 30, 2011, December 31, 2011, June 30, 2012, June 30, 2013 and December 31, 2013.

3. New Accounting Policies

(a) Accounting Standard for Asset Retirement Obligations

On March 31, 2008, the Accounting Standards Board of Japan (“ASBJ”) issued Statement No.18 “Accounting Standard for Asset Retirement Obligations” and ASBJ Guidance No.21 “Guidance on Accounting Standard for Asset Retirement Obligations”. The new standard requires that a statutory or similar obligation with regards to the removal of tangible fixed assets be recognized as a liability at the present value of the estimated future cash flows when the related assets are acquired.

The Company adopted the new standard for asset retirement obligations from the six months ended June 30, 2011. The application of this new standard did not have material impact on the financial position as of June 30, 2011 or the results of operation for the six months then ended.

(b) Accounting Standard for Accounting Changes and Error Corrections

Effective from the six months ended December 31, 2011, the Company adopted “Accounting Standard for Accounting Changes and Error Corrections” (ASBJ Statement No.24 issued on December 4, 2009) and “Guidance on Accounting Standard for Accounting Changes and Error Corrections” (ASBJ Guidance No.24 issued on December 4, 2009).

This new accounting standard requires that accounting changes and corrections of prior period errors, which are made after the beginning of fiscal years beginning on or after April 1, 2011, should be adopted or corrected retrospectively.

4. U.S. Dollar Amounts

The Company maintains its accounting records in Japanese yen. The U.S. dollar amounts included in the accompanying financial statements and notes thereto represent the arithmetical result of translating Japanese yen into U.S. dollars at the rate of ¥105.31 = US\$1, the effective rate of exchange prevailing at December 31, 2013. The inclusion of such U.S. dollar amounts associated with the fiscal six months ended December 31, 2013 is solely for the convenience of readers outside Japan. Such translations should not be construed as representations that the Japanese yen amounts represent, or have been, or could be converted into, U.S. dollars at that or any other rate.

5. Cash and Cash Equivalents

13. Income Taxes

The Company is subject to corporate income taxes in Japan. The Company may deduct from its taxable income the amounts distributed to its unitholders, provided the requirements are met under the Special Taxation Measures Act of Japan. Under this act, the Company must meet a number of tax requirements, including a requirement to distribute in excess of 90% of distributable profit for the fiscal period in order to be able to deduct such amounts. If the Company does not satisfy all of the requirements, the entire taxable income of the Company will be subject to regular corporate income taxes in Japan.

The Company has a policy of making distributions in excess of 90% of its distributable profit for the fiscal period to qualify for conditions set forth in the Special Taxation Measures Act of Japan to achieve a deduction of distributions for income tax purpose and it distributes approximately 100% of distributable profit. Hence, the Company has treated the distributions as a tax allowable deduction as defined in the Special Taxation Measures Act of Japan.

20. Financial Instruments

(a) Qualitative information for financial instruments

i. Policy for financial instrument transactions

The Company raises funds through loans payable and the issuance of investment units to acquire real estate properties, pay property maintenance expenses and/or repay existing loans payable. Surplus funds are managed carefully through investments in financial instruments taking into account liquidity and safety in light of the current financial market conditions. Derivative instruments are used only for hedging purposes and not for speculation. The Company did not enter into any derivative transactions for the six months ended June 30, 2011, December 31, 2011, June 30, 2012, December 31, 2012, June 30, 2013 and December 31, 2013.

ii. Nature and extent of risks arising from financial instruments and risk management

The funds raised through loans payable are mainly used to acquire real estate properties or properties in trust and for the repayment of existing loans payable. Liquidity risks relating to loans payable are managed by the finance department of the Asset Manager by preparing monthly plans for funds, and monitoring the covenants defined in loan agreements.

iii. Supplemental information for financial instruments

The fair value of financial instruments is based on quoted market prices if available. When quoted market prices are not available, fair value is estimated using valuation techniques which contain various assumptions. If other valuation models or assumptions were used, the estimated value may differ.

(b) Quantitative information for financial instruments

The following table shows the carrying amounts, fair values and valuation differences of financial instruments for which fair value is available as of June 30, 2011, December 31, 2011, June 30, 2012, December 31, 2012, June 30, 2013 and December 31, 2013.

Note (1): The methods and assumptions used to estimate fair value are as follows:

(1) Cash and bank deposits and (2) Cash and bank deposits in trust

Because of their short maturities, the carrying amounts approximate their fair value.

(3) Short-term loans payable

Because of their short maturities and floating interest rates reflecting changes in market rates within a short term period, the carrying amounts of short-term loans payable approximate their fair values.

- (4) Current portion of long-term loans payable, (5) Long-term loans payable, (6) Current portion of long-term loans payable in trust and (7) Long-term loans payable in trust

The fair values of long-term loans payable with fixed interest rates are determined based on the present value of contractual cash flows discounted at current market interest rates which would be applicable to new loans payable under the same conditions and terms. Long-term loans payable with floating interest rates reflecting changes in market rates within a short term period are stated at their carrying amounts as their carrying amounts approximate their fair values.

Note (2): Financial instruments for which fair value is difficult to determine are as follows:

Tenant leasehold and security deposits are not publicly traded, and it is difficult to determine their fair value based on estimated future cash flows because the repayment dates of those deposits are not certain. Therefore, these financial instruments are not included in the above quantitative information.
