Results of June 2023 Fiscal Period (FP)	<ul style="list-style-type: none">■ Sales and profits increased significantly this period due to a recovery in hotel performance. Operating revenue increased by 33% compared to the previous fiscal period (“previous period”), and recovered to 98% of the level achieved during the same period in 2019, excluding gain on sales of properties■ Net income and distribution per unit (“DPU”) both increased by 76% compared to the previous period to JPY 8,913 million and JPY 1,464, respectively. DPU recovered to 88% of the same period in 2019■ Operating revenue and DPU were 36% and 92% higher, respectively, compared to the original forecast announced at the beginning of this period on January 25, 2023■ DPU increased by JPY 20 compared to the forecast announced at the time of the public offering on July 19, 2023■ The total appraisal value of the 127 properties held at the end of June 2023 was JPY 560,963 million, a 5.3% increase from the end of the December 2022 appraisal
Summary of Properties Acquired in August 2023	<ul style="list-style-type: none">■ Acquired six domestic hotels for a total acquisition price of JPY 57.2 billion at a simulated 6.0% NOI yield■ Fusaki Beach Resort Hotel & Villas, which accounts for approximately 70% of the acquisition price, is one of the leading resort hotels in Japan, boasting 398 rooms, a site area of 10.8 hectares, fronted by a 1km-long beach. The hotel is the largest flagship property in INV’s portfolio in terms of asset size (based on acquisition price)■ Expanded investment centered on resort-type hotels in Japan, further growing the largest hotel portfolio among J-REITs to JPY 507.8 billion■ Aiming to capture domestic and overseas resort demand that is expected to increase as the Covid-19 pandemic diminishes■ Enhancing domestic hotel portfolio footprint by adding properties in Akita, Nagano, and Okayama prefectures
Financial Condition	<ul style="list-style-type: none">■ Issued JPY 6.2 billion of bonds for the first time in three years (3-year and 5-year terms) in May 2023■ Refinanced bank loans of JPY 59.3 billion in total in July 2023 (5-year term: 38.1%, 3-year term: 48.5%, 1-year term: 13.4%)■ Executed bank loans of JPY 26.7 billion in total (excluding consumption tax refundable loans) for the August 2023 asset acquisitions (5-year term: 65.6%, 3-year term: 34.4%)■ Average duration of outstanding interest-bearing debt increased from 1.1 years (as of December 31, 2022) to 1.9 years (as of August 1, 2023) due to the lengthening of borrowing periods and diversification of maturity dates

<p>Domestic Portfolio</p>	<ul style="list-style-type: none"> ■ Comparing the KPIs of the 75 domestic hotels owned by INV between this period and the same period in 2019, ADR was 7.5% higher than in the same period in 2019. Although the Occupancy rate is still 6.1points lower, RevPAR achieved JPY 8,772, which is the same level as the June 2019 fiscal period ■ GOP of 75 domestic hotels this period increased by 17.7% from the previous period and recovered to 90.0% of the same period in 2019, despite non-room revenues such as weddings and banquets not returning to 2019 levels and various cost increases ■ The strategy to maximize GOPPAR (GOP per the number of rooms available for sale) by the major tenant, MyStays Hotel Management Group (“MHM”), has continued to be successful. The GOP margin of the 73 domestic properties managed by MHM (“73 MHM properties”) increased from 34.7% the previous period to 37.4% this period ■ NOI of 41 residential properties for this period was JPY 1,126 million, up 1.2% from the same period in 2022 and 2.4% from the same period in 2019
<p>Cayman Hotel Portfolio</p>	<ul style="list-style-type: none"> ■ RevPAR for the two Cayman hotels for this period was USD 415, 11.9% higher than USD 371 in the same period in 2019 due to a significant increase in ADR ■ USD based Management Contract Revenue this period increased by 240.9% compared to the same period in 2022, and increased by 9.4% over the same period in 2019¹ ■ Group bookings this period were smaller than the same period in 2019 due to delays in the removal of travel restrictions compared to competing resorts in Caribbean counties. Transient lodging demand recovered faster than Group demand this period, because Groups book much further in advance than Transient guests ■ Transient room nights recovered to 93.8% of 2019 levels whereas Group room nights recovered to 73.3% of 2019 levels. Group demand is expected to recover strongly in the December 2023 FP
<p>Forecasts for December 2023 Fiscal Period (FP) and June 2024 Fiscal Period (FP)</p>	<ul style="list-style-type: none"> ■ Forecasts remain unchanged from those announced on July 19, 2023, with DPU expected to be JPY 1,441 for the December 2023 FP and JPY 1,466 for the June 2024 FP ■ The forecasts do not factor in the impact of the lifting of the ban on group travel from China to Japan announced on August 10, 2023, while incorporating a reactionary decline due to the end of the "National Travel Discount Campaign" ■ The portfolio of 41 residential properties and one commercial property is expected to maintain stable returns

(Note 1) The ownership structure of the two Cayman hotels was changed from a Tokumei Kumiai structure to a direct ownership structure in the middle of June 2019 FP. Therefore, Management Contract Revenue in June 2019 FP is a hypothetical number, assuming INV has held two Cayman hotels in the current direct ownership structure from the beginning of 2019

II-1. Financial Highlights for June 2023 FP

- Significant increase in revenues and income due to the recovery in hotel business performance this period. Operating revenue increased by 33% from the previous period to JPY 15,914 million and DPU increased by 76% to JPY 1,464 compared to the previous period
- Operating revenue and DPU were 36% and 92% higher, respectively, compared to the original forecast announced at the beginning of this period on January 25, 2023
- No rent reduction measures were given to MHM from January 2023, and variable rent of JPY 4,566 million was recorded in addition to the fixed rent of JPY 4,970 million based on the original contracts this period

II -2. Operating Revenue Composition

- Operating revenue increased by 33% from the previous period as the fixed rent from MHM returned to the original contract, and variable rent from domestic variable rent hotels as well as the management contract revenue from two Cayman hotels have recovered
- In addition, operating revenue recovered to 98% of revenues in the same period in 2019 (pre-pandemic period), despite a decrease in revenues from the disposition of residential and commercial properties

(Note 1) Based on the properties owned by INV during each fiscal period respectively. The gain on sale is excluded
 (Note 2) The figure for June 2019FP includes the amount of TK dividends INV received for the fiscal period before INV owned Cayman hotels directly

II-3. Summary of December 2023 FP Forecast

- For the December 2023 FP, operating revenue is expected to increase by 49.1% to JPY 17,786 million and DPU is expected to increase by 73.2% to JPY 1,441 from the same period last year, reflecting the further earnings recovery of hotels and external growth effects
- Net income is expected to be 17.6% below, and DPU is expected to decrease by 16.5% compared to the December 2019 FP due to the absence of TMK dividend income from Sheraton Grande Tokyo Bay Hotel and the gain on sale of properties
- Further upside is expected depending on the recovery in demand following the lifting of the Chinese group travel restrictions announced on August 10, 2023

	December 2022 FP	December 2023 FP	Variance		December 2019 FP	Variance

Major Causes for Variance (Dec 2023 FP v Dec 2022 FP)

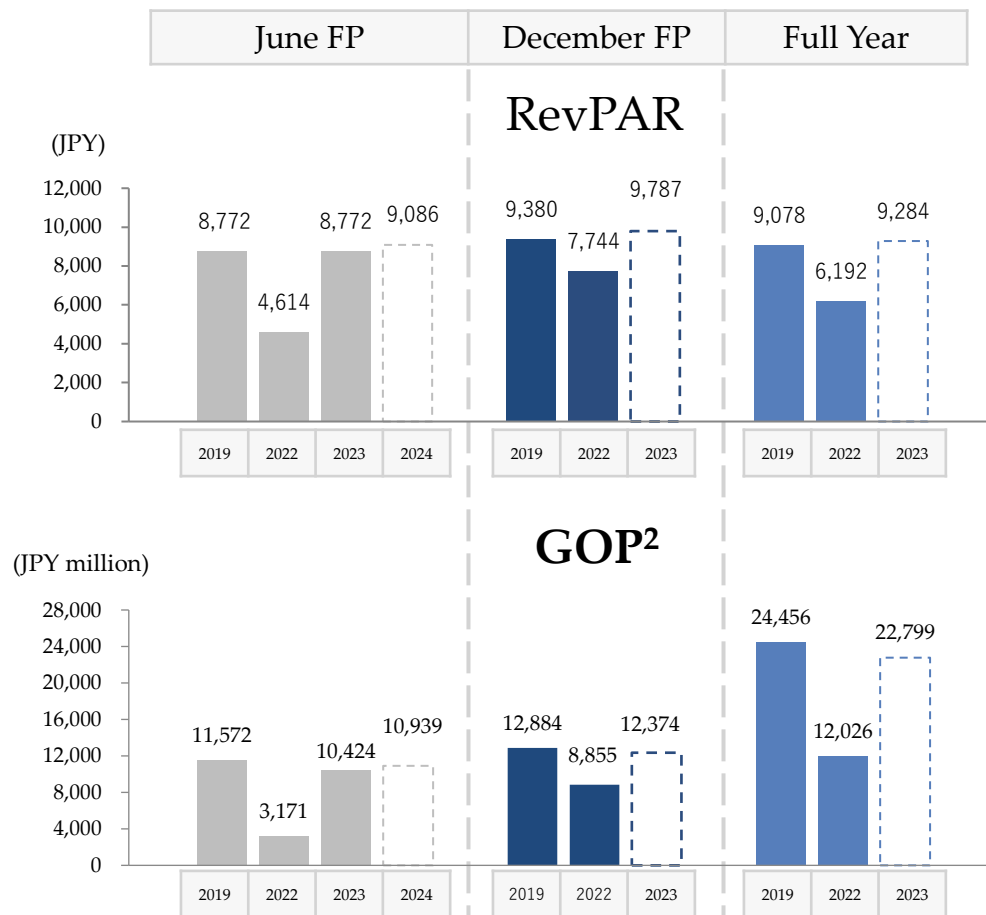

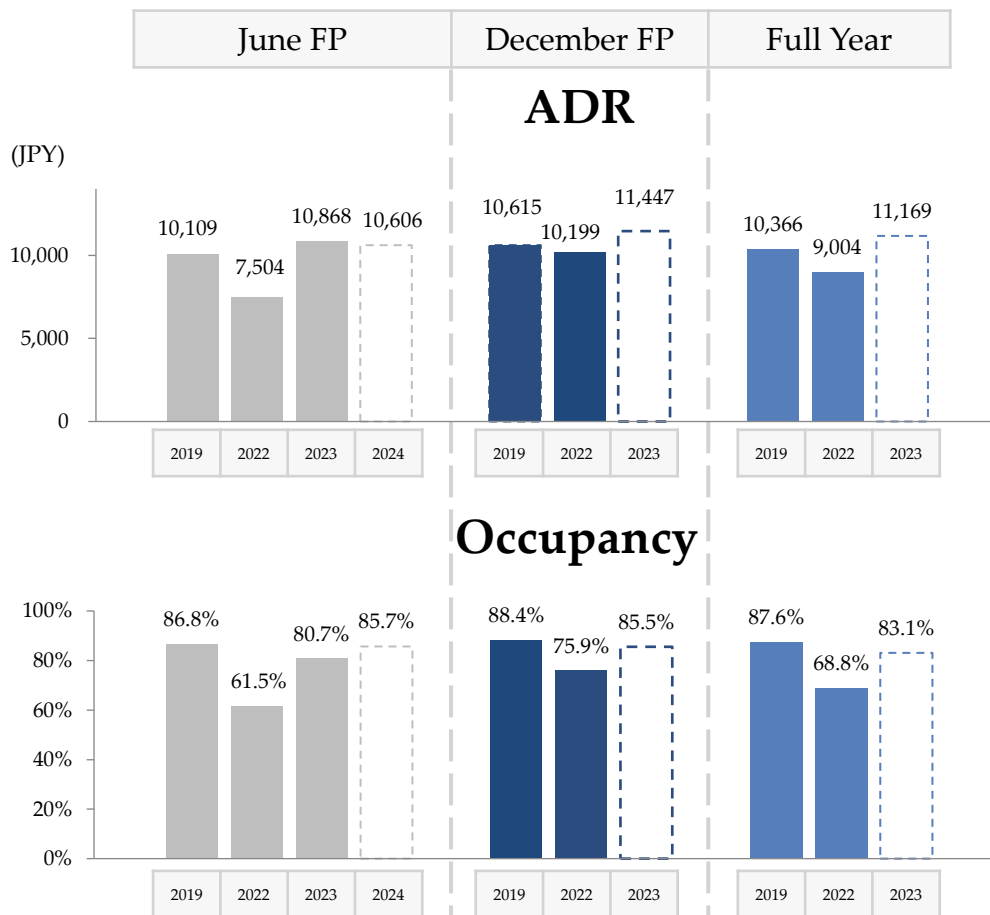

Operating revenue	(JPY million)
✓ Increase in existing hotel rents (variable rent and fixed rent) : +3,120	
✓ Increase in rents from newly acquired hotels (variable rent and fixed rent) : +2,264	
✓ Increase in residential rents : +12 →Increase in revenues from the 41 properties currently owned	
✓ Increase in management contract revenue : +460 →In addition to 16.3% increase in USD basis, contribution from yen depreciation	
Operating expenses/Non-operating expenses	(JPY million)
✓ Increase in real estate rental expenses : +599 →of which, increase from newly acquired hotels : +468	
✓ Increase in management contract expenses : +172 →Increase in insurance premium, etc. : +148, depreciation expenses : +23	
✓ Increase in non-operating expenses : +469 →Increase in investment unit issuance costs : +200, interest cost : +89 Increase in debt cost : +96, foreign exchange loss : +46	

Major Causes for Variance (Dec 2023 FP v Dec 2019 FP)

Operating revenue	(JPY million)
✓ Increase in hotel rents (variable rent and fixed rent) : +2,033 →of which, increase from newly acquired hotels : +2,264	
✓ Decrease in residential rents : -810 →Disposition of a total of 20 properties	
✓ Decrease in TMK dividend amount : -673 →Decrease in GOP of Sheraton Grande Tokyo Bay Hotel due to the pandemic and recording of accumulated loss	
✓ Increase in management contract revenue : +809 →In addition to 15.4% increase in USD basis, contribution from yen depreciation	
Operating expenses	(JPY million)
✓ Increase in real estate rental expenses : +532 →of which, increase from newly acquired hotels : +468	
✓ Increase in management contract expenses : +204 →Increase in insurance premium, etc. : +160, depreciation expenses : +44	
✓ Increase in non-operating expenses : +405 →Decrease in interest cost : -55, increase in debt cost : +237 Increase in investment unit issuance costs : +56, foreign exchange loss : +115	

- Comparing the KPIs of the 75 domestic hotels owned by INV between this period and the same period in 2019, ADR was 7.5% higher than in the same period in 2019. Although the Occupancy rate is still 6.1points lower, RevPAR achieved JPY 8,772, which is the same level as the June 2019 fiscal period. RevPAR increased 1.9 times while GOP increased 3.3 times compared to the same period last year, reflecting continued cost reduction efforts and advanced pricing strategy implemented by MHM
- 2023 full year GOP is expected to increase by 90% year-on-year, with a projected recovery to 93% of the full year 2019 level

Domestic 75 hotels¹

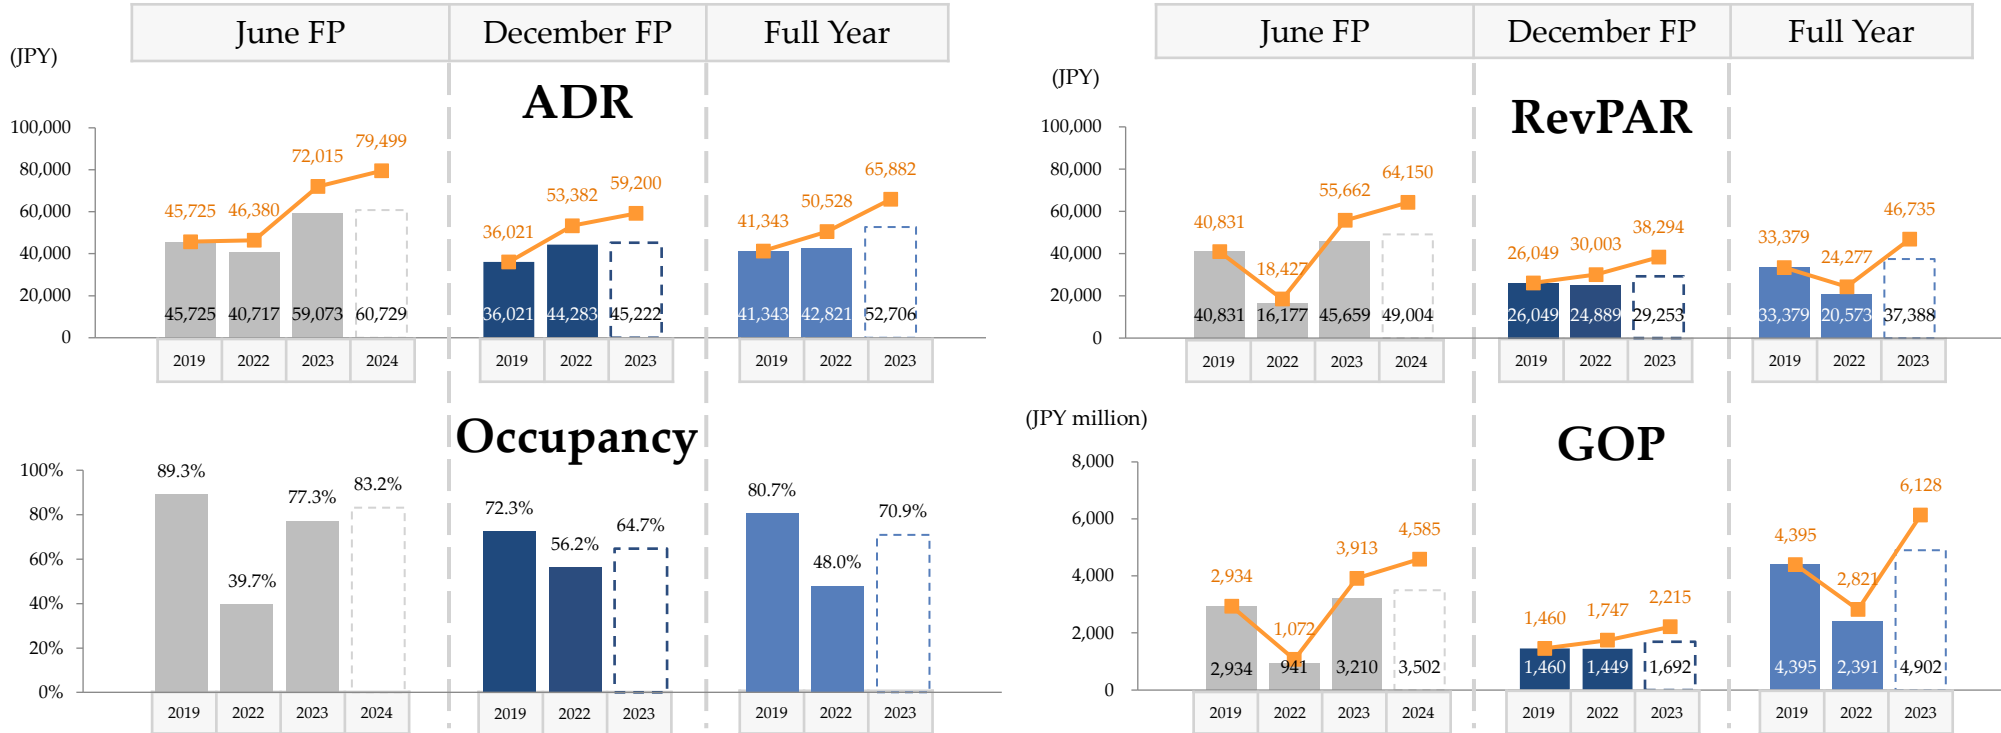

(Note 1) Simulated KPI based on 75 hotel properties; of the 84 domestic hotel properties (including Sheraton Grande Tokyo Bay Hotel, the underlying asset of preferred equity interest held by INV) owned as of August 24, 2023, 9 hotels with fixed-rent lease agreements are excluded, assuming all properties were owned since the beginning of 2019. The performance for the pre-acquisition period, which is based on actual results provided by sellers with certain adjustments assuming INV owned them, are subject to change caused by the adjustments based on differences in accounting treatments, since it is difficult to adjust them due to the timing even if the figures are based on actual performance. In calculating the GOP, added the 49% of GOP for Sheraton Grande Tokyo Bay Hotel, which means INV's pro rata portion of the amount of JV TMK's preferred equity owned by INV. The rent paid for APA Hotel Yokohama-Kannai, is regarded as GOP of the hotel. Furthermore, among the 9 hotels excluded, the contract with the major tenant TOKYU HOTELS CO., LTD. for "Takamatsu Tokyu REI Hotel" has been modified to "fixed-rent plus variable rent" since April 25, 2023. However, from the viewpoint of the continuity of data, it is treated as a hotel with fixed rent and continues to be excluded. The same shall apply hereinafter

(Note 2) The GOP for the period from June 2020 FP to December 2022 FP includes the employment adjustment subsidies received by the operator, and there is a slight discrepancy with the previous disclosure since the amount was not finalized. There is no change in the variable rent for each fiscal period due to the confirmation of the amount received

II-5. Cayman Hotel KPIs (Past performance and Dec. 2023 FP and June 2024 FP Forecasts)

- KPIs other than occupancy exceeded the June 2019 FP this period
- 2023 full year GOP (US dollar based) is expected to exceed 2019 by 12% and is expected to increase 105% year-on-year, outpacing the RevPAR growth forecast of 82%

Cayman 2 hotels¹

< About ADR, RevPAR and GOP >

Bar chart = converted into yen using the exchange rate of USD 1 to JPY 110 to eliminate the influence of exchange rate fluctuations

Line chart (—■—) = converted into yen using the weighted average exchange rate (exchange rate for December 2023 FP and June 2024 FP are forecast) for each fiscal period. These figures are different from accounting figures

	June FP				December FP			Full Year		
	2019	2022	2023	2024	2019	2022	2023	2019	2022	2023
The weighted average exchange rate (JPY)	110.0	125.3	134.1	144.0	110.0	132.6	144.0	110.0	129.8	137.5

(Note 1) Simulated KPI based on 2 Cayman hotels owned as of August 24, 2023, assuming INV owned both properties directly since the beginning of 2019

II-6. Capital Expenditures and Depreciation

- The air conditioner renewal project for the entire APA Hotel Yokohama-Kannai (budget: approximately JPY 355 million), representing the largest facility renewal project in 2023 at the beginning of 2023, was shifted to 2024 per APA Hotel's request
- At the beginning of the year, the budget was created for the maximum amount necessary, including facility upgrades which had not been implemented due to the Covid-19 pandemic. However, as a result of a close examination and review of the timing, including prioritization of work implementation and contractor arrangements for each project, 2023 full year maintenance CAPEX is expected to be 70% of the original budget, or JPY 3.7 billion as of today
- The 3.2% increase in depreciation compared to the original budget is the net result of the increase in depreciation from the six hotels acquired on August 1, 2023 and the effect of lower CAPEX compared to the original budget

(Note 1) Excess FFO is defined as the amount of depreciation minus maintenance CAPEX. The same shall apply hereafter

(Note 2) Assumed that all of the allotted units in the third-party allotment in connection with the secondary offering through over-allotment (6,737,121 units) have been subscribed and paid

(Note 3) Strategic capital investment for renovation including guest rooms, banquet rooms, restaurant and others in order to improve the competitiveness / profitability of the hotels

(Note 4) Capital investment which is required to maintain proper values of properties and capital investment for fixtures and furnishings that are necessary for operating hotels

(Note 5) Based on the acquisition price as of the end of the relevant year. After 2017, includes the amount of preferred equity interest contribution by INV to the JV TMK that holds Sheraton Grande Tokyo Bay Hotel (SGTB). The acquisition price of overseas hotels (i) is the amount of TK investment to the SPC which held the leasehold of properties for "2018" and (ii) is the book value of the hotels as of May 9, 2019 for "2019" onward, which are converted into JPY amount via the forward exchange rate of USD 1=JPY 110.45 based on the foreign exchange forward implemented in connection with the original TK investment in the Cayman SPC (contract thereof was entered into on July 26, 2018 and implemented on September 26, 2018)

III. Summary of Properties Acquired in August 2023

III-1. Summary of Properties Acquired

- Acquired six domestic hotels for a total acquisition price of JPY 57.2 billion at a simulated 6.0% NOI yield
- Fusaki Beach Resort Hotel & Villas, which accounts for approximately 70% of the acquisition price, is one of the leading resort hotels in Japan, boasting 398 rooms, a site area of 10.8 hectares, fronted by a 1km-long beach. The hotel is the largest flagship property in INV's portfolio in terms of asset size (based on acquisition price)

Property Name	Location	Type	No. of Rooms	Acquisition Price ¹ (JPY million)	Appraisal Value ² (JPY million)	2023 NOI ³ (Before Depreciation) (Simulated) (JPY million)	2023 NOI Yield ³ (Before Depreciation) (Simulated)

Fusaki Beach Resort Hotel & Villas

Tateshina Grand Hotel Takinoyu

Hotel MyStays Okayama

Hotel MyStays Aomori Station

Hotel MyStays Soga

Tazawako Lake Resort & Onsen

(Note 1) Acquisition Price shows purchase price set forth in the purchase and sale agreement and does not include adjustments for property taxes, city planning taxes, or national or local consumption taxes

(Note 2) As of June 1, 2023

(Note 3) Calculated by combining the actual monthly performance from Jan. to May 2023 and anticipated monthly performance from Jun. to Dec. 2023 estimated by INV when the acquisition was decided. Pre-acquisition performance is based on actual results provided by sellers and adjusted to reflect trust fees and insurance premiums assuming the properties had been held by INV

(Note 4) The average is a weighted average for NOI Yield

III-2. Change in Hotel Portfolio

- INV's hotel portfolio, which is the largest among J-REITs, reached JPY 507.8 billion in size by expanding investments in domestic resort hotels
- Aiming to capture domestic and overseas resort demand that is expected to increase as the Covid-19 pandemic diminishes

(Note 1) The amount of preferred equity interest contribution by INV to the JV TMK and the amount of TK investment by INV to the SPC are counted according to the number of properties of underlying assets

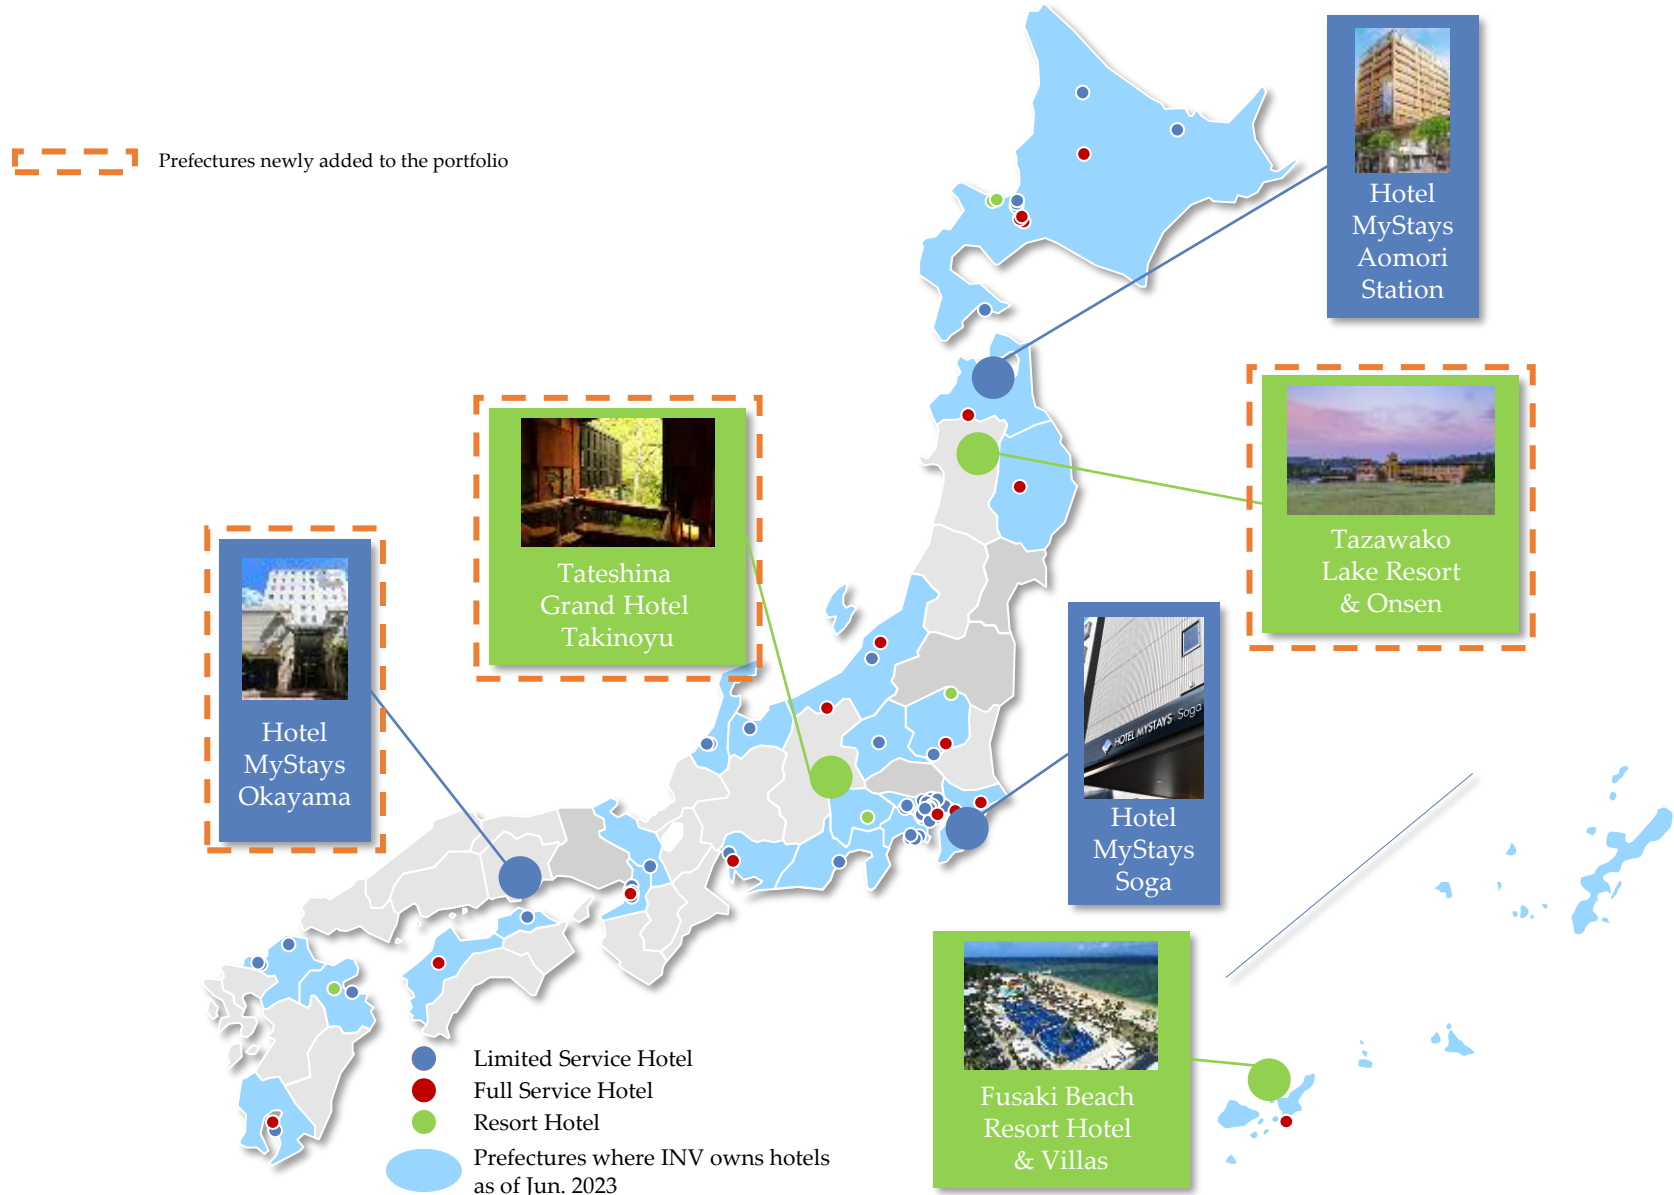

(Note 2) Full service hotels are, in general, hotels that have both restaurant facilities providing breakfast, lunch and dinner (including meals provided by reservation) and meeting facilities that can be used for banquet services. We categorize all hotels other than full service hotels as limited service hotels (except for limited service hotels that are classified as resort hotels, as described below). Resort hotels are hotels located in areas where a substantial number of guests stay for sightseeing or recreational purposes and includes both full service hotels and limited service hotels. With respect to a hotel that falls within the definition of both a full service hotel and a resort hotel, we categorize the hotel as a full service hotel if it has substantial demand for meeting room, banquet service, wedding service or food and beverage service (including demand from non-staying guests) and as a resort hotel in all other cases. With respect to a hotel that falls within the definition of both a limited service hotel and a resort hotel, we categorize the hotel as a resort hotel

(Note 3) Based on acquisition price and acquisition price of SGTB interest in INV's portfolio is calculated by applying the amount of preferred equity interest contribution by INV to the JV TMK. The acquisition price of overseas hotels (i) as of the end of December 2018 is the amount of TK investment to the SPC which held the leasehold of properties and (ii) as of August 22, 2019 is the book value of the hotels as of May 9, 2019, which are converted into JPY amount via the forward exchange rate of USD 1=JPY 110.45 based on the foreign exchange forward implemented in connection with the original TK investment in the Cayman SPC (contract thereof was entered into on July 26, 2018 and implemented on September 26, 2018). The amount of preferred equity interest contribution by INV to the JV TMK and the amount of TK investment by INV to the SPC are included the calculation, which are based on the property type or location of the underlying asset

(Note 4) Defined as follows: Greater Tokyo (ex. Tokyo 23 wards) is Tokyo (ex. Tokyo 23 Wards), Kanagawa, Chiba and Saitama. Kansai area is Osaka, Hyogo, Kyoto, Shiga, Wakayama and Nara. Chubu area is Aichi, Gifu, Mie, Shizuoka, Nagano, Yamanashi, Niigata, Toyama, Ishikawa and Fukui. Kyushu area is Fukuoka, Kumamoto, Kagoshima, Nagasaki, Oita, Miyazaki, Saga and Okinawa

III-3. Domestic Hotel Portfolio Map

- Well-balanced hotel types including Limited Service, Full Service, and Resort, with geographic diversity contributing to stable profitability of the portfolio
- Enhancing domestic hotel portfolio footprint by adding properties in Akita, Nagano, and Okayama prefectures

IV. Status of Hotel Operations and Market

IV -1. Situation in Japan and Changes in INV's Hotel Occupancy Rate

- The occupancy rate of INV's domestic 75 hotels continue to outperform the national average every month
- The "National Travel Discount Campaign" launched on October 11, 2022 significantly boosted domestic demand. The number of Japanese total overnight stays from January to June 2023 reached almost the same level as the same period in 2019. The number of inbound total overnight stays, which had been stagnant, also recovered significantly in June 2023 to almost the same level in June 2019

Changes in the number of Japanese and Inbound overnight guests compared to 2019³

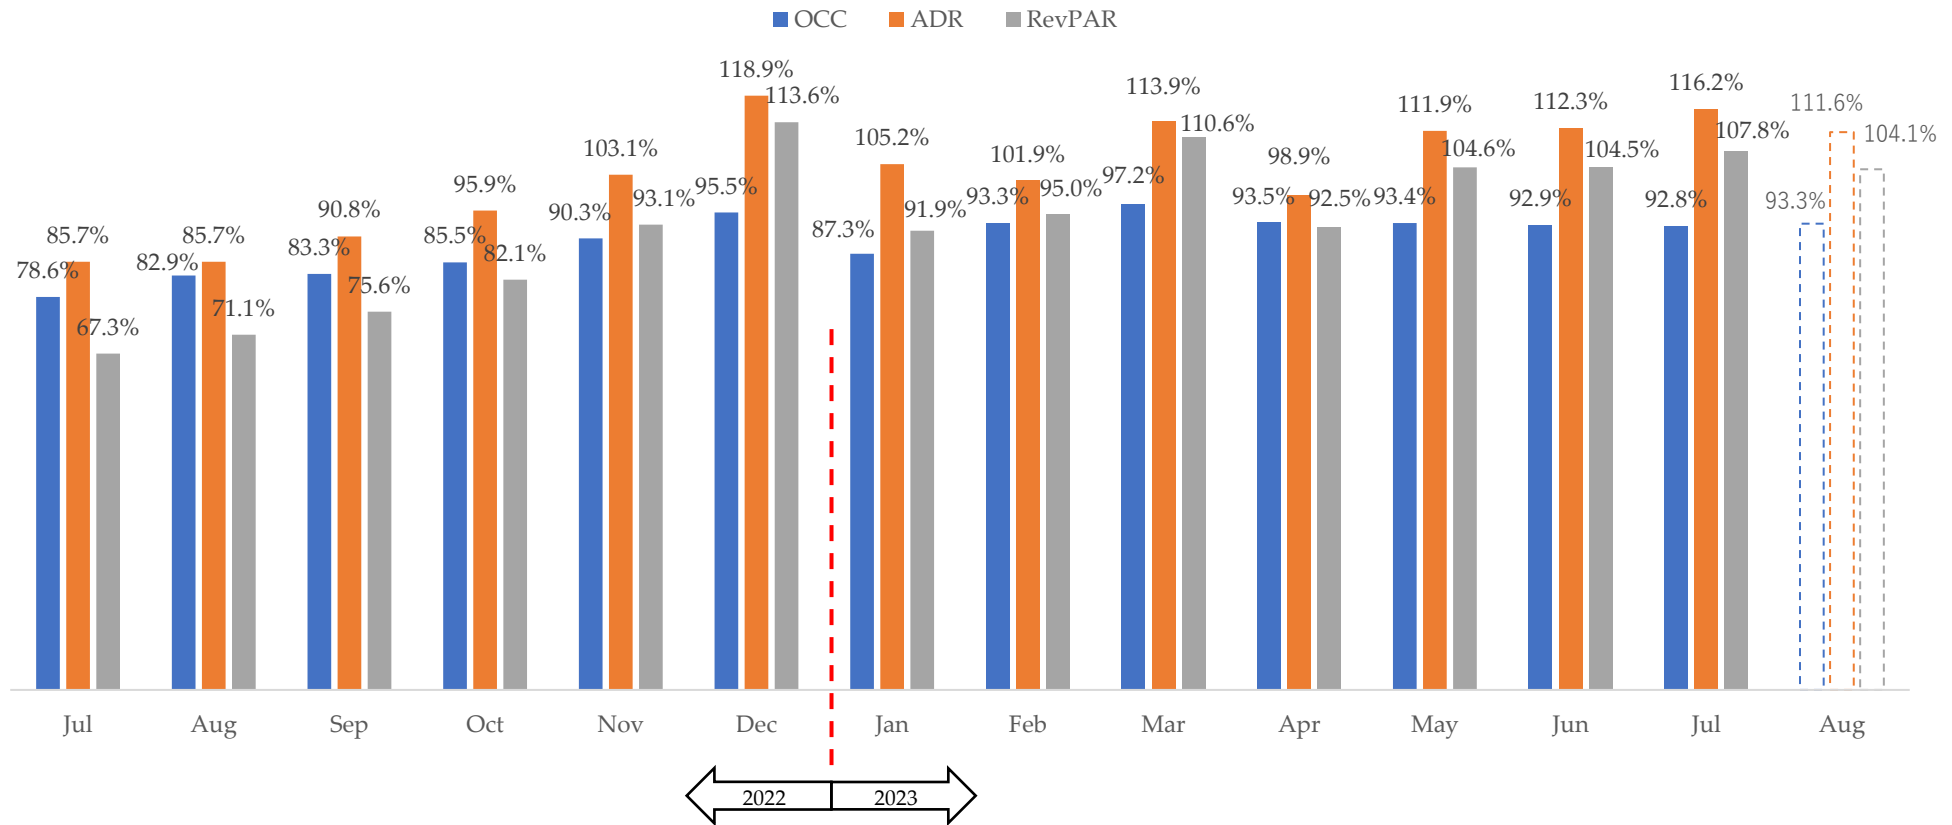

(Note 1) Each period of State of Emergency² through ⁴ shows the period during which Tokyo was under a state of emergency
 (Note 2) Simulated KPI based on 75 hotel properties; of the 84 domestic hotel properties (including Sheraton Grande Tokyo Bay Hotel, the underlying asset of preferred equity interest held by INV) owned as of June 30, 2023, 9 hotels with fixed-rent lease agreements are excluded, assuming all properties were owned since the beginning of 2021. The performance for the pre-acquisition period, which is based on actual results provided by sellers with certain adjustments assuming INV owned them, are subject to change caused by the adjustments based on differences in accounting treatments, since it is difficult to adjust them due to the timing even if the figures are based on actual performance
 (Note 3) Source: MLIT The figures for June 2023 are the first preliminary figures and January 2022 ~May 2023 are the second preliminary figures which may change in the future

IV-2. Recovery trends in KPIs for INV's 75 domestic hotels

- In this period, ADR exceeded the 2019 level every month except April, which did not have a single Golden Week holiday on a weekday
- There was only one month in the previous period where RevPAR exceeded the same month level in 2019, however, half of months this period exceeded the level in each corresponding month in 2019

Recovery Trends in KPIs from July 2022 to August 2023 : 75 Hotels in Japan

Percentages represent KPIs as a percent of 2019 KPIs of the same month (100% = 2019)

- Acquiring diverse client demand through proactive sales proposals and different types of plans through enhancement of the proposal capabilities in line with the expansion of the MHM chain, and following-up on the increased business activities of companies in the post Covid-19 period
- Strengthening existing loyalty program to enhance the ability as a hotel chain to acquire clients and increase repeat business, and developing a new client base through collaboration with Accordia Golf

Initiatives implemented in the June 2023 FP

Initiatives toward post Covid-19

- Secured certain level of demand for meetings by proposing plans to avoid the “Three Cs (closed spaces, crowded places and close-contact settings)”. Sales from meetings for the June 2023 FP at 16 hotels owned by INV showed a steady increase of 117% compared to the same period in 2019 leveraging the customer bases and experience gained during Covid-19 pandemic. However, banquet demand is still in the recovery phases, as the sales from this segment remain at 63% of the June 2019 FP level

In order to capture demand for year-end parties, intensive sales activities will be regularly conducted jointly by the corporate sales division at the head office and local sales offices at hotels where sales activities are expected to be effective

	Sales from meetings (JPY thousand)	Sales from banquets (JPY thousand)
June 2019 FP	440,591	1,110,892
June 2023 FP	519,493	705,200

- In anticipation of the end of the National Travel Discount Campaign, the company is considering measures to make reservations on its own website more attractive. In addition, plans to emphasize a return to hotel banquets will be implemented at 16 hotels owned by INV in the December 2023 FP
- Delivery and take away service offered at 13 hotels owned by INV accounts for 5.3% of restaurant sales at those hotels, showing the existence of stable demand. As such, the service will be continued

Initiative for expansion and enhancement of client base

- Strengthen the existing loyalty program to enhance the hotel chain's ability to acquire clients and increase repeat business, such as by using points earned through business use for leisure activities
- Start the following initiatives with Accordia Golf Co., Ltd. (AG)
 - ✓ Setting exclusive plan for AG point members
 - ✓ Implementing joint promotion on TV programs in Korea
 - ✓ Establishing reciprocal links on websites

Sales expansion through proactive proposal-based marketing

- Demand in accommodation for various corporate training programs increased at several hotels owned by INV, including MyStays Kameido which obtained a large-scale customer order, due to an increase in corporate hiring of interns and mid-career hires. Strengthening of demand capture through proactive sales proposals to corporations
- Focus on acquiring demand in accommodation from new flight operations, reviewing existing contract terms and conditions, and capturing training demand in anticipation of potential demand from the resurgence of domestic and international flight operations
- “Study Tour¹” orders from overseas are approximately 3 times higher than the 2019 annual level (as of July 1, 2023) due to enhanced proposal capabilities at MHM

	Demand for accommodations for interns	Demand for accommodations for mid-career hires
June 2023 FP	JPY 1,600 thousand 6 hotels	JPY 17,135 thousand 12 hotels
December 2023 FP onwards (as of July 1, 2023)	JPY 8,459 thousand 8 hotels	JPY 77,019 thousand 8 hotels

Changes in sales of various plans at 73 INV-owned hotels (examples)

(Note 1) Tours for students and teachers from overseas to learn about Japanese culture and environment

IV-4. Change in GOP for 73 hotels managed by MHM

- GOP margin¹ of domestic 73 hotels managed by MHM increased to 37.4% this period from 34.7% in the previous period through continued strategies to maximize GOPPAR (GOP Per Available Room)
- The GOP and GOP margin in May and June 2023 recovered almost to 2019 levels while absorbing cost increases
- In an effort to minimize the impact of cost increases for utilities, food, and other expenses, MHM meticulously sets prices for each hotel based on aspects of daily demand forecast such as the number of guests per room, unit price per guest, cost of goods, and other factors

(Note 1) GOP / total sales; hereinafter the same

(Note 2) The GOP for the December 2022 FP includes the employment adjustment subsidies received by the operator, and there is a slight discrepancy with the previous disclosure since the amount was not finalized. There is no change in the variable rent for each fiscal period due to the confirmation of the amount received

IV-5. MHM: Future Outlook and Strategy

- Domestic business demand is expected to recover to pre-Covid-19 levels despite factors such as a decrease in business travel due to the spread of online meetings
- Domestic leisure demand is not expected to increase or decrease significantly, although a temporary reduction in demand driven by the National Travel Discount Campaign is anticipated
- Overall inbound demand is expected to recover to 2019 levels around February 2024. For China, recovery is expected from spring to summer 2024, and accumulated latent demand is anticipated to materialize during the following year¹
- No major issues have occurred in hiring staff. Opened “Narita Hospitality Academy” to develop human capital with diverse backgrounds

	Assumption of Domestic Demand		Assumption of Inbound Demand	
	Leisure	Business	Leisure	Business
Outlook for December 2023 FP	<ul style="list-style-type: none"> ✓ Hotels that benefited from prefectural and national travel discount campaigns in 2022 are expected to gradually recover to pre-Covid-19 levels, but may face a temporary reduction in demand after the campaigns end 	<ul style="list-style-type: none"> ✓ Although there are factors such as the spread of online meetings that may reduce business travel in the future, demand is expected to be almost at the same level as pre-Covid-19 levels in 2023 	<ul style="list-style-type: none"> ✓ The number of visitors to Japan, which is currently 70% of the same period in 2019 level, is expected to approach the 2019 level around February 2024, after the problem of insufficient airport capacity is resolved and flights shift to the winter timetable in October ✓ Inbound demand from China, which has group visa restrictions, is expected to increase significantly among leisure travelers once the restriction is lifted¹ 	<ul style="list-style-type: none"> ✓ Business travel is expected to be 80% to 90% of 2019 levels as some industries become more remote
Outlook for June 2024 FP Onwards	<ul style="list-style-type: none"> ✓ Same as the December 2023 FP 	<ul style="list-style-type: none"> ✓ Same as the December 2023 FP 	<ul style="list-style-type: none"> ✓ For China, a recovery from spring to summer 2024 is expected, and accumulated latent demand is anticipated to materialize during the following year 	<ul style="list-style-type: none"> ✓ Same as the December 2023 FP

Future Strategy

- For domestic demand, special discount plans for KAMENOI HOTEL MEMBERS and Accordia members, and promotion codes will be used
- For inbound, increase the number of hotels using GDS² (Global Distribution System), a new sales channel introduced in October 2022, from 40 to 51 hotels
- Trial promotion (Preferred Program, etc.) with overseas OTAs. However, close examination of channels including MHM’s website and low-cost channels will be implemented simultaneously as the overseas channels tend to have higher costs
- In terms of securing staff, MHM had no major issues during the Covid-19 pandemic because it protected employment by leveraging employment adjustment subsidies, and continued to recruit new graduates, which is one of the strong points of MHM. Furthermore, it opened “Narita Hospitality Academy” in June 2023, which is a post-arrival training facility for foreign technical interns, as part of its unique initiatives to develop and hire global human capital with diversified backgrounds

(Note 1) The forecasts in this report do not factor in the impact of the lifting of the ban on group travel from China to Japan announced on August 10, 2023
 (Note 2) Refers to a dedicated platform that can only be accessed by suppliers, such as airlines, hotels, cruises, and car rentals, who receive reservations, and travel agencies that place reservations

- Continuous corporate sales activities have led to a 2.5 times increase in MICE and banquet sales this period
- Acquired a three-year contract for catering services through enhanced relationships with local companies and related organizations. Group use for general banquets and other events is also expected in the future
- Strive to capture further demand through provision of accommodation plans through the renewal of flight simulator and kids' area

Initiatives to Maximize Revenue

Capture demand for MICE and banquets

- MICE and banquet demand steadily recovered in the June 2023 FP compared to the same period last year, when demand for MICE and banquets slumped due to the re-spread of Covid-19
- Continuous corporate sales activities have led to a 2.5 times increase in MICE and banquet sales this period, with strong on-hand (number of confirmed reservations) from July to September 2023, expected to be +31% over the same period in 2019

	Sales from MICE/banquets (JPY thousand)	
June 2022 FP	170,190	X 2.5
June 2023 FP	427,580	

Weddings

- Re-imagine wedding coordination at large venues and promote it on websites, SNS, and Zexy, emphasizing the flexibility of coordination that is possible at large venues
- The conversion rate for visitors who came to the hotel for the purpose of wedding consultations, including wedding experience fairs, remained high at 50%-59%
- Continue to hold the Grand Wedding Fair three times a year. Promoted sales by providing high-quality table coordination, lighting and video/image projection experience, and wedding tastings at a large venues

Reducing Operating Costs

- Hotel operating costs this period increased slightly to approximately JPY 5 billion compared to the same period in 2019
- Despite general price pressures, including increases in consumables, equipment, staffing, electricity and gas rates, as well as the impact of the yen's depreciation, the hotel continues to increase personnel to improve performance and carefully and appropriately monitor and manage expenditures and inventory as occupancy rates rise due to a recovery in inbound demand and other factors

Various accommodation packages and promotion (future initiatives)

- Focus on adding packages on global OTA sites such as Expedia and Booking.com, expanding digital tools such as C-Trip, and digital marketing in order to acquire overseas guests and MICE business
- Increase number of 3- and 4-bedroom rooms to capture demand from families and groups of friends who wish to stay in the same room
- Maximize revenues by strengthening the hotel's direct booking-only package offerings to reduce commissions and other costs, and to capture demand from overseas customers for consecutive nights

Initiatives to Capture New Demand

Capture new demand with enhanced relationship with local companies and related organizations

- Started a three-year contract with the Chiba Lotte Marines to provide catering services for the VIP room at ZOZO Marine Stadium

	# of games	Number of sales	Sales (JPY thousand)
June 2023 FP	34	4,883	24,360

- Implemented SDGs program that can be used for school excursions in partnership with major domestic companies. Strengthening ability to capture demand for school excursions by offering the hotel's own programs for schools other than Disney Academy¹

Flight simulator and cabin mockup facility "SKY Experience"

- The "flight simulator" and lodging package plan launched in August 2022, achieved JPY 4.7 million of sales (108 rooms) in the June 2023 FP

Renewal of indoor playground facility "Wizkids"

- On December 23, 2022, the kid's area "Treasures Island" on the second floor of the OASIS building was renewed and a new kid's area was opened. This facility, based on the concept of a place where children, who are "masters = wiz" of play, can spend a relaxing time "together = with kids", was used by 28,088 people (sales of JPY 22 million, of which 34% visitors) in the June 2023 FP

【Overview of the facility】

Area	Total 538.13㎡ (Maximum capacity including adults and children: 120 people)
Recommended age	1~12 years old
Fee	Children (1~12 years old) 1-hour ¥900 3-hour ¥2,000 Adult (13 years old and over) 1-hour ¥600 3-hour ¥1,400

(Note 1) Official seminar program offered by Tokyo Disney Resort (TDR) to junior and high school students where students can learn "work", "hospitality" and "communication", etc. SGTB provides venues for the seminar

IV-7. Update of the Status of the Cayman Islands

- Lodging demand was strong on Grand Cayman through the June 2023 FP. Westin achieved 88.5% of its June 2019 FP occupancy, and Sunshine Suites achieved 81.1% of its June 2019 FP occupancy. Sunshine Suites' recovery has been slower than the Westin, because Sunshine Suites is contending with new competition from the Hampton Inn and Locale – both new hotels with more modern rooms
- Within the June 2023 FP, Transient lodging demand has recovered faster than Group, because the delays in lifting Covid-19 travel restrictions resulted in fewer 2023 Group bookings due to uncertainty about travel restrictions and flight availability (as Groups book much further in advance). Through the June 2023 FP, the resorts' combined Transient room nights recovered to 93.4% of 2019 levels whereas Group room nights recovered to 73.3% of 2019 levels. Group demand is expected to recover strongly in the December 2023 FP, as the Westin is forecasted to achieve higher than its December 2019 FP Group room nights
- Combined, the June 2023 FP RevPAR of USD 415 exceeded the June 2019 FP RevPAR of USD 371 and exceeded the budget for the June 2023 FP RevPAR of USD 306 due to strong ADR achieved at both properties. The resorts recovery is expected to continue into the December 2023 FP
- USD based Management Contract Revenue this period increased by 240.9% compared to the same period in 2022, and increased by 9.4% over the same period in 2019¹
- The proposed Annex Expansion of the Westin was once again heard before the Caymanian Central Planning Authority ("CPA"), and on 25 July the CPA approved the plan subject to a number of minor conditions involving access to the proposed offsite parking lot, revisions to the project Traffic Impact Assessment, and ensuring the expansion will feature sea turtle "friendly" lighting, amongst other things. The next steps for this project are to update required investment analysis for the expansion, investigate the potential return on investment, and satisfy all the minor conditions laid out by the CPA

Recovery Trends in KPIs from Jan. 2023 to Aug. 2023 : 2 Hotels in Cayman

Percentages represent KPIs as a percent of 2019 KPIs of the same month (100% = 2019)

Cayman Hotels' Management Contract Revenue¹

Recovery Trends in KPIs from Jan. 2022 to Dec. 2022 : 2 Hotels in Cayman

(Note 1) The ownership structure of the two Cayman hotels was changed from a Tokumei Kumiai structure to a direct ownership structure in the middle of June 2019 FP. Therefore, Management Contract Revenue in June 2019 FP is a hypothetical number, assuming INV has held two Cayman hotels in the current direct ownership structure from the beginning of 2019

IV-8. Stay-over Visitation and Airlines Serving the Cayman Islands

- In Jan-May 2023, the Cayman Islands reported a total of 194,901 flight arrivals or 84% of its same period 2019 arrivals. During 4Q 2022, following the removal of Covid-19 travel restrictions, the Cayman Islands reached 89% of their pre-pandemic stay-over visitor numbers¹
- With most visitors to the Cayman Islands coming from the United States, pilot and flight attendant staffing shortages impacted flight schedules. Additionally, the Cayman Islands' delayed reopening to travel following the pandemic resulted in a slower recovery in Group business in the first half of 2023
- Looking ahead, it is anticipated that travel demand for the Cayman Islands will continue to increase. When looking at Puerto Rico and St. Thomas, which were two of the first islands to reopen to US mainland tourists during the pandemic, these islands saw airline arrivals over the 12-month period ending April 2023 increase by 125.8% and 138.9% over 2019 levels, respectively²
- In July, Cayman Airways announced an additional direct flight from Los Angeles (LAX) on Wednesday nights which will begin service in late 2023

Flight Arrivals³ (2019 vs 2023)

Airlines Serving the Cayman Islands

Airline	Major Destinations
Air Canada	Toronto, Canada
American Airlines	Boston, Miami, Charlotte, Chicago, Dallas, Philadelphia
British Airways	London, United Kingdom; Nassau, Bahamas
Cayman Airways	Denver, Miami, New York, Tampa, Los Angeles; Havana, Cuba; Kingston, Jamaica
Delta Airlines	Atlanta, Detroit, Minneapolis
JetBlue Airways	New York, Boston, Fort Lauderdale
Southwest	Fort Lauderdale, Houston, Baltimore
United Airlines	Houston, New York, Washington D.C., Chicago
WestJet	Toronto, Canada
Caribbean Airlines	Kingston, Jamaica

IV-9. Status of New Hotel Development in Japan

- According to a semiannual survey¹ by "Weekly Hotel Restaurant" magazine, new supply continues to decline since 2019 due to the pandemic
- The total number of new rooms planned to be supplied in the second half of 2023 through 2025 is less than the number of new rooms supplied in 2022, indicating the pace of new supply is expected to continue to decline

The Number of Planned New Hotel Room Supply^{2,3}

New hotel rooms supplied or planned to be supplied each year⁴

The Change in the Number of Rooms for New Hotel Development³

(# of Rooms)

The downward trend has been continuing since the survey as of December 2019

Source: Prepared by Asset Manager based on HOTERES

Source: Prepared by Asset Manager based on HOTERES survey and official website of each hotel company

(Note 1) Published twice a year in June and December

(Note 2) Based on available information as of June 2, 2023. Newly built hotels with more than 40 rooms are included

(Note 3) Based on the plans confirmed as of each survey by HOTERES

(Note 4) Hotel rooms planned to be built shown above is based on the plans of surveyed hotel developers as of June 2, 2023. It is possible that additional development plans have or will be announced subsequent to June 3, 2023 that result in new hotel supply after 2023 being larger than the supply shown above. Accordingly, actual new hotel supply may differ materially from the figures shown above

IV-10. Status of Hotel Stock in Japan

- Amid a recovery trends in the overall hotel market, the number of bankruptcies in the hotel industry from January to June 2023 increased slightly from the previous year
- In 2022, the number of hotels in Japan decreased by 2.4% compared to 2021; the Resort category saw a more pronounced drop of 8.1%

Number of bankruptcies¹ of inn and hotel operators (June FP)

Source: Prepared by Asset Manager based on data from Teikoku Databank

Change in number of hotels²

	2019/12		2020/12		2021/12		2022/12	
		YoY		YoY		YoY		YoY
Resort	2,680	+18.1%	3,320	+23.9%	3,320	+0.0%	3,050	-8.1%
Business	8,270	+4.8%	8,830	+6.8%	8,810	-0.2%	8,690	-1.4%
City	1,430	+19.2%	1,560	+9.1%	1,750	+12.2%	1,810	+3.4%

(Note 1) The number of bankruptcies refers only to bankruptcies resulting from legal liquidation procedures (corporate reorganization, civil rehabilitation, bankruptcy, and special liquidation). The number of companies closed or dissolved is the number of companies that have been confirmed as having ceased business activities without any special procedures (closed businesses), or that have been dissolved in the current fiscal year of commerce, etc., except for those in bankruptcy (legal liquidation)

(Note 2) Prepared by Asset Manager based on data from MLIT

IV-11. Trial Calculation: Business vs. Leisure Demand

- Based on the assumptions of this trial calculation, business demand of 73 hotels managed by MHM appears to have recovered to 2019 levels in 2022 onward
- Inbound leisure demand is expected to recover further as the Chinese government lifted its restriction on group travel to Japan in August 2023

Breakdown of Business / Leisure Demand at 73 Hotels managed by MHM¹

Premises :

Assumed the number of rooms sold on the days before Saturday, Sunday, and national holiday is leisure demand. As for other days, assumed the number of rooms sold is leisure demand if DOR* is larger than 2.0, and if DOR is equal or less than 2.0, assumed the number of rooms sold multiplied by [DOR - 1.0] is leisure demand, while the remaining is assumed to be business demand (based on the assumption that all the rooms are used either by one person or two persons)

*Abbreviation of "Double Occupancy Ratio". It is calculated by dividing the number of guests stayed by the number of rooms sold, i.e., an average number of guests per room sold (The same is applied for other pages)

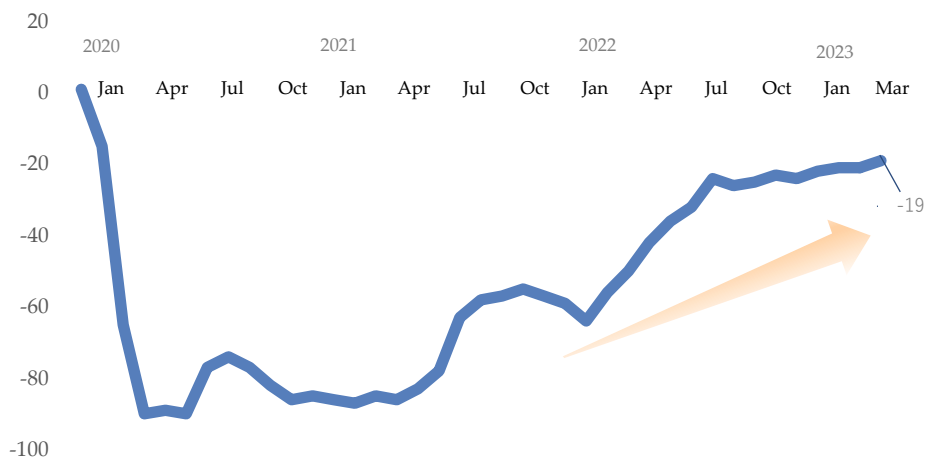

(Note 1) Indicates 73 hotels operated by MHM in INV portfolio as of July 31, 2023

IV-12. Status of Overseas Travel

- According to the United Nations World Tourism Organization (UNWTO), the number of international tourists in March 2023 recovered to 81% compared to the same month in 2019
- By region, although Asia-Pacific's recovery is slow, the number of international airline seats recovered to 106% in the Middle East, 98% in the Americas and 95% in Europe compared to May 2019
- The U.S. Hotel RevPAR Index continued to be above 2019 for many weeks due to high ADR

International Tourist Arrivals (UNWTO) (Jan 2020-Mar 2023)

International Tourist Arrivals (Global) Index¹ (FY2019=100)

Number of seats on international flights by region¹ (FY2019=100)

Hotel KPIs in the U.S. (Jan 2020-Mar 2023)

(Note 1) Source: UNWTO. The figures for the same month in 2019 are indexed to 100
(Note 2) Prepared by Asset Manager based on the data from STR. KPIs of US hotels in each week are indexed as 100 for comparable weeks in 2019

IV-13. Inbound Market

- The number of inbound visitors in the period from January to June 2023 is 0.64 times that of the same period in 2019. However, the average number of nights spent has lengthened to 1.38 times, and travel spending has recovered to almost the same level at 0.92 times that of the same period in 2019
- For the breakdown of travel spending, the share of shopping expenditures, which accounted for the largest share (35.4%) in the period from January to June 2019, decreased to 24.9% in the same period in 2023, while accommodation expenditures increased from 29.2% in the period from January to June 2019 to 34.4% in the same period in 2023, making it the largest item. Food and beverage, transportation, and “intangible goods consumption” also increased
- The number of visitors per 1,000 population from China and Southeast Asian countries is far behind Hong Kong, Taiwan, and South Korea as of 2019, and the number of visitors is expected to increase significantly in the future as per capita national income increases

Change in Occupancy¹

(January 2019 – June 2023 : Average occupancy rate as of the end of the month during each fiscal period)

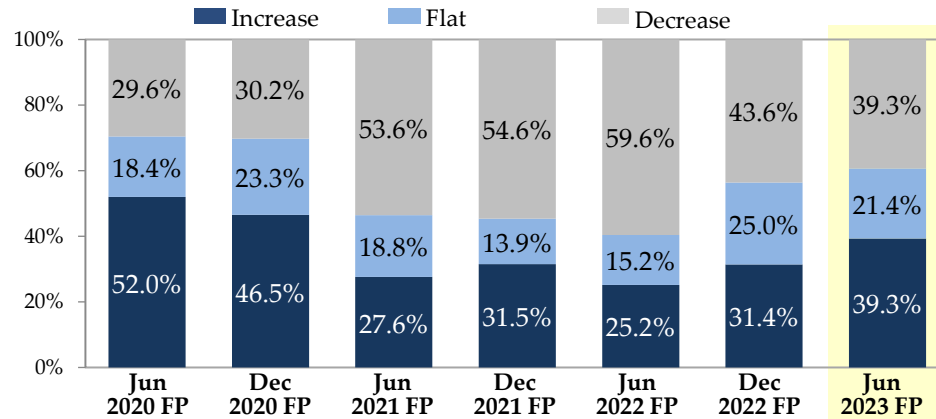

(Note 1) Based on 41 properties held by INV as of the end of the fiscal period ended June 30, 2023. Excludes one-off insurance-related revenues and expenses as well as one-off custodian fee associated with a trust split for NOI

V-2. Changes of Residential Rents

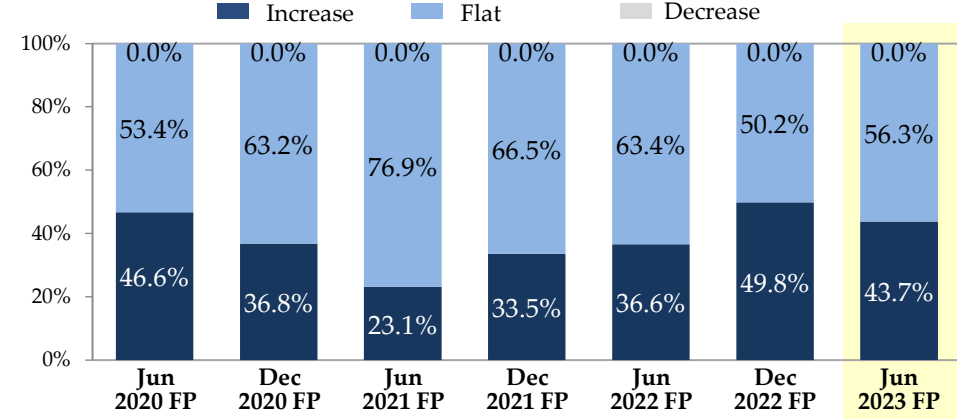

Companies have been more active in relocating employees this year compared to 2022 due to the removal of behavioral restrictions resulting from the Covid-19 pandemic, boosting performance. The percentage of rent declines at the time of tenant replacement continued to decrease and the percentage of rent increases at the time of tenant renewal increased with the recovery of occupancy rate during this period. This trend is expected to continue in the December 2023 FP, as two-thirds of INV's residential portfolio (based on acquisition price) is located in Tokyo 23 Wards

Changes in Rent for New Contracts¹

No. of New Contracts	402	288	388	216	282	156	257
Occupancy ²	96.2%	94.6%	95.3%	94.7%	96.0%	96.3%	96.5%
Net Leasing Cost (No. of months) ³	0.47	1.04	0.85	1.23	0.89	1.02	0.73

Changes in Rent for Renewal Contracts¹

No. of Renewals	712	364	581	355	454	235	430
Renewal Rate ⁴	80.7%	84.1%	79.7%	79.6%	79.6%	79.7%	74.3%

Changes in Rent for All Contracts¹

Average Rent Increase / Decrease⁵

(Note 1) Based on the properties owned by INV for the relevant period. The properties INV acquired / disposed during the period are included only for the term when owned by INV
 (Note 2) Occupancy is calculated by dividing the sum of total residential leased area by the sum of total residential leasable area at the end of each month of each year
 (Note 3) Net Leasing Cost (Multiple of Monthly Rent) = Advertising Expenses (Multiple of Monthly Rent) + Free Rent (Multiple of Monthly Rent) - Key Money (Multiple of Monthly Rent)
 (Note 4) Renewal rate is calculated by "Number of Renewals during the Period" ÷ "Number of Cases Targeted for Renewal during the Period"
 (Note 5) Weighted average of monthly rent increase or decrease (%) of new or renewal contracts, or the total of both, compared with previous contracts of properties owned at the end of period

- Issued JPY 6.2 billion of bonds for the first time in three years (3-year and 5-year terms) in May 2023
- Refinanced bank loans of JPY 59.3 billion in total in July 2023 (5-year term: 38.1%, 3-year term: 48.5%, 1-year term: 13.4%)
- Executed bank loans of JPY 26.7 billion in total (excluding consumption tax refundable loans) for the August 2023 asset acquisitions (5-year term: 65.6%, 3-year term: 34.4%)
- Average duration of outstanding interest-bearing debt increased from 1.1 years (as of December 31, 2022) to 1.9 years (as of August 1, 2023) due to the lengthening of borrowing periods and diversification of maturity dates

LTV (Appraisal Value Base)¹ and Weighted Average Interest Rate²

DSCR³

(Note 1) Calculated by the following formula: (Interest-bearing debts at the end of the relevant fiscal period, excluding short-term consumption tax loan) / (Total appraisal value as of the end of the same period). For the preferred equity interest in the TMK which holds Sheraton Grande Tokyo Bay Hotel as an underlying asset, the acquisition price (INV's investment amount) of such preferred equity interest is deemed as the appraisal value and included. For the Overseas Real Estate TK Interest the underlying assets of which are "The Westin Grand Cayman Seven Mile Beach Resort & Spa" and "Sunshine Suites Resort", the acquisition price (INV's TK investment amount) of such TK interest is deemed as the appraisal value and included regarding the calculation for "Dec. 2018". Regarding "Jun. 2019" onward, calculation is based on the appraisal value as of the end of each fiscal period. USD is converted into JPY amount via the forward exchange rate of USD 1=JPY 110.45 based on the foreign exchange forward contract entered into on July 26, 2018

(Note 2) Calculated by the following formula: (Total loan amount outstanding at the relevant time multiplied by applicable interest rate at the relevant time for each loans) / (The loan amount outstanding at the end of each fiscal period)

(Note 3) DSCR is calculated by dividing (i) by (ii) for the relevant period; (i) operating income, as adjusted for depreciation expenses from property rental business and any loss (gain) on sales of property (ii) scheduled prepayments of loans payable, interest expenses. Excluded the temporal increase of income due to the change of investment structure regarding overseas assets for the calculation of June 2019 fiscal period

- Acquired BELS Certification for an additional seven of INV's hotels, bringing the number of hotels with BELS Certification to 15, including eight hotels that obtained the certification in the previous period
- Acquired CASBEE Certification for Buildings for two hotels and Certification for CASBEE for Real Estate for two residential properties
- Established a Green Finance Framework to implement Green Finance and obtained the highest rating on JCR's Green Finance Framework Evaluation (August 2023)
- The Asset Manager of INV has expressed its support for the recommendations of the Task Force on Climate-related Financial Disclosures ("TCFD") and joined the "TCFD Consortium", an organization of domestic companies that support the TCFD recommendations

■ Acquisition of BELS¹ Certification

Acquired BELS (Building-Housing Energy-efficiency Labeling System) Certification for seven of INV's hotels
 Hotel MyStays Oita was rated five stars "★★★★★", and Hotel MyStays Sapporo Station was rated four stars "★★★★" due to high energy conservation performance

★★★★★		★★★★	
	Hotel MyStays Oita		Hotel MyStays Sapporo Station

■ Green Finance Framework Evaluation

Acquired "Green1 (F)", the highest rating on JCR's Green Finance Framework Evaluation in August 2023

■ INV in 2022 GRESB Real Estate Assessment³

GRESB Rating
"2-Star"

GRESB Public Disclosure
"A Level", the highest level

GRESB
☆☆☆☆☆ 2022

(Note 1) BELS is a third-party certification system that evaluates and certifies the energy-saving performance of a building that the operators are required to make efforts to display under the Act on Improving Energy Conservation Performance for Architectural Structures. Houses and buildings are evaluated based on the value of BEI (Building Energy Index) derived from the primary energy consumption based on the government-designated energy consumption performance standard of architectural structures. The evaluation result is rated on a five-star scale based on energy conservation performance (from one star "★" to five stars "★★★★★"), with five stars meaning the highest energy conservation performance. Also, two stars or more represent that the building meets the existing energy conservation standard

(Note 2) CASBEE is a method that comprehensively assesses the quality of a building, and evaluates features such as interior comfort and scenic aesthetics, in consideration of environmental practices including use of materials and equipment that save energy or achieve smaller environmental loads. CASBEE Certification for Buildings (Existing Buildings) scores buildings based on the environmental quality and the environmental load reduction of buildings that are at least one year old after completion. Assessment results by CASBEE are indicated on a scale with the following five ranks: Rank S "★★★★★", Rank A "★★★★", Rank B+ "★★★", Rank B- "★★", and Rank C "★". Certification for CASBEE for Real Estate was developed with the aim of making use of the results of the environmental assessment of buildings by CASBEE in real estate evaluation. The assessment results are given one of four ranks: Rank S "★★★★★", Rank A "★★★★", Rank B+ "★★★", and Rank B- "★★"

(Note 3) GRESB is an annual benchmarking assessment to measure ESG (Environmental, Social, and Governance) integration of real estate companies and funds. The GRESB Real Estate Assessment is characterized by evaluating sustainability initiatives of real estate companies, REITs, and real estate funds, rather than targeting individual real estate. The GRESB rating is a relative evaluation based on the overall score, with the highest rating being 5-star

- MHM has decided to introduce EV charging infrastructure to achieve a decarbonized society, and is working to protect the environment and improve convenience for hotel guests
- Opened “Narita Hospitality Academy” specialized in hotel-specific training for foreign technical interns, promoting diversity in human resources
- Organized a charity event in one of the group hotels to sell reusable items and promotes ecotourism and sustainable development of tourism, industry and culture through donations of profits made

E

Initiatives for Environment

Introduction of EV infrastructure “Terra Charge”

Decided to introduce EV charging infrastructure “Terra Charge” provided by Terra Motors Corporation in most of hotels operated by MHM as one of the measures to achieve a decarbonized society. 156 units will be installed at 90 hotels, and will be gradually expanded to hotels across Japan to protect the environment and improve convenience of hotel guests

(as of April 19, 2023)

Hotel brand	# of hotels to be introduced	# of units to be introduced
Hotel Mystays Premier	4	10
Hotel Mystays	22	31
Flexstay Inn	1	1
Art hotel	10	20
Mystays collection	21	30
Kamenoi Hotel	32	64
Total	90	156

Energy-saving construction using Ministry of the Environment subsidy (SHIFT Project)

Hotel Nord Otaru and Hotel MyStays Sapporo Aspen have been selected to receive subsidies from the Ministry of the Environment’s “Project for Promotion of Leading Decarbonization Initiatives in Factories and Business Sites” (SHIFT Project*) to remove absorption water cooling and heating machines which are due for replacement in the December 2023 FP, and introduce air cooled heat pump chillers in the aim to reduce CO2 emissions

* The Projects support initiatives that serve as role models for decarbonization (setting reduction targets, formulating reduction plans, and implementing facility upgrades, electrification, fuel conversion, and operational improvements) at factories and business sites in order to achieve Japan's 2030 GHG reduction targets and achieve carbon neutrality by 2050

S

Initiatives for Society

Promotion of diversity in human resources

- Opening of “Narita Hospitality Academy”

Opened “Narita Hospitality Academy” on June 1, 2023, in Narita city, Chiba prefecture, which is a post-arrival training facility specializing in hospitality internships for foreign technical interns. It provides a unique hotel-specific training program under the supervision of MyStays Hotel Group which operates various type of accommodations across Japan. The training contributes to the development of hospitality personnel by providing a general Japanese language program as well as the spirit and culture of Japanese hospitality, in the aim to make them acquire the knowledge and specialized skills as hotel staff

- SDGs Event “Mystays Charity Market”

Expanded the “Matching Project”, a project that had been implemented among 145 group hotels to reuse products as much as possible, to the general public and organized an event in one of the group hotels (August 2023) to sell items such as tableware, furniture, appliances, etc. that are no longer used in the establishments due to renovation or renewal. Profits made will be donated to Japan Ecotourism Society¹

(Note 1) Organization established in the aim of promotion of “Ecotourism” to support local economies through tourism, while preserving resources such as nature, culture, etc.

Appendix (1)

Unitholder Benefit Program for Invincible Unitholders

- INV introduced the Unitholder Benefits Program with the goal of increasing unitholders satisfaction and expanding the investor base
- Eligible unitholders can stay at a discounted rate at the Sheraton Grande Tokyo Bay Hotel and at all MyStays group hotels (including the former Kanpo no Yado hotels)
- INV decided to expand the available period by two months (from six months to eight months) for stay from the December 2022 Fiscal Period and onwards, to further promote the use of the Unitholder Benefits Program

Overview of Unitholder Benefit Program¹

Applicable Hotels	<ul style="list-style-type: none"> ■ Sheraton Grande Tokyo Bay Hotel ■ All hotels managed by MyStays² 		
Eligible Unitholders	<p>All unitholders who hold Invincible unit(s) and whose names are on Invincible's Unitholders' Registry as of these record dates:</p> <ul style="list-style-type: none"> ✓ June 30 and December 31 of each year 		
Benefit Program	①	②	
Eligible Hotels	Sheraton Grande Tokyo Bay Hotel	All MyStays Hotels (Includes Kamenoi Hotel Beppu and Okunikko Yumoto. Excludes former Kanpo no Yado hotels)	Kamenoi Hotels (Former Kanpo no Yado hotels) (Excludes Kamenoi Hotel Beppu and Okunikko Yumoto)
Details	10% discount from BAR ³	10% discount from BAR ³	¥1,000 discount per one night per person for plans with breakfast and dinner (Includes plans with children)
Hotel Reservation	By telephone or email	Via dedicated website	Via telephone or dedicated website
Available Period ⁴	<ul style="list-style-type: none"> ■ From April 1 to <u>November 30</u> (eligible unitholders as of December 31) ■ From October 1 to <u>May 31</u> (eligible unitholders as of June 30) 		

Eligible Hotels:
Sheraton Grande Tokyo Bay Hotel and All hotels managed by MyStays²

Hotel MyStays
Premier Kanazawa

Kamenoi Hotel Beppu

Hotel Epinard Nasu

Hotel MyStays
Premier Akasaka

Fusaki Beach Resort
Hotel & Villas

(Note 1) The details of the unitholder benefit program described above is what Invincible plans as of today, and the program may be changed or abolished even after it is actually introduced
 (Note 2) All hotels operated by MyStays Hotel Management Co., Ltd., which are listed on the Official Site of My Stays Hotel Group (<https://www.mystays.com/en-us/>). Hereafter the same on the page
 (Note 3) BAR (Best Available Rate) refers to the lowest price at the time of booking
 (Note 4) Available Period represents a period during which you can lodge by using the unitholder benefit program. To enjoy the unitholder benefit program, you actually need to lodge during the available period

- In April 2023, the government lifted border measures, which has triggered a remarkable increase in the number of inbound visitors thereafter
- The number of inbound visitors to Japan in the first six months of 2023 is already 2.8 times the annual total for 2022. Further increase in the number of inbound visitors is expected as the Chinese government lifted its restriction on group travel to Japan in August 2023

Others	15	8	8	8	5	2	2	2	1	1	1

(Note 1) As of August 1, 2023

(Note 2) Based on acquisition price at the end of each fiscal period and acquisition price of SGTB interest in INV's portfolio is calculated by applying the amount of preferred equity interest contribution by INV to the JV TMK. For overseas hotels, "The Westin Grand Cayman Seven Mile Beach Resort & Spa" and "Sunshine Suites Resort", the amount of TK investment to the SPC which held the leasehold of the hotels is deemed as the acquisition price and included regarding for 2018. For 2019 onward, the book value of the hotels as of May 9, 2019, which are converted into JPY amount via the forward exchange rate of USD 1=JPY 110.45 based on the foreign exchange forward implemented in connection with the original TK investment in the Cayman SPC (contract thereof was entered into on July 26, 2018 and implemented on September 26, 2018)

(Note 3) The amount of preferred equity interest contribution by INV to the JV TMK and the amount of TK investment by INV to the SPC are counted according to the number of properties of underlying assets and included the calculation which are based on the property type of the assets

Summary of Appraisal Value and NAV per Unit

Trend of Appraisal Value

Trend of NAV per Unit²

(Note 1) Unrealized Gain = End-of-period Appraisal Value - End-of-period Book Value

(Note 2) NAV per unit is calculated by the following formula: (End-of-period Amount of Net Assets - Undistributed Profit + End-of-period Appraisal Value - Tangible property (including leasehold rights in trust)) ÷ Investment Units outstanding as of the end of each fiscal period

NAV ratio	1.2	0.6	0.7	0.9	0.7	0.8	1.0	1.0

(Note 1) Financial indicators calculation method in the above table are as follows

- ROA(annualized) = Ordinary Income / Weighted Average Total Assets during the period x 100/days during the period x 3
- ROE(annualized) = Net Income / Weighted Average Net Assets during the period x 100/days during the period x 365
- LTV(1) = End-of-period Interest-Bearing Debt / (End-of-period Interest-Bearing Debt + Unitholders' Capital + Unitholders' Capital Surplus)x100
- LTV(2) = End-of-period Interest-Bearing Debt / End-of-period Total Assets x 100
- NOI = Rental Revenues + TMK Dividend amount - Property-Related Expenses + Depreciation Expenses
- NOI yield (annualized) = ((Rental Revenues + TMK Dividend amount - Property-Related Expenses + Depreciation Expenses)/ days during the period x 365)/ Acquisition Price
- FFO = Net Income + Depreciation Expenses + Other Amortization – Gain on Sales of Properties + Loss from Sales of Properties
- NAV = End-of-period Amount of Net Assets – Undistributed Profit + End-of-period Appraisal Value - Tangible property (including leasehold rights in trust)
- NAV ratio = period-end unit price/ Amount of Net Assets per Unit

(Note 2) Figures are rounded down to the indicated unit and percentages are rounded to one decimal place
In addition, "Amount of Net Assets per Unit (¥)" and "NAV per Unit (¥)" are rounded to nearest yen

(Note 1) With regard to "increase / decrease", we calculate it excluding properties acquired / sold during the period

(Note 2) The names of the appraisers in the chart are abridged. Official names are as follows: Assets R&D: Assets Research and Development Inc., JREI: Japan Real Estate Institute, Morii: JLL Morii Valuation & Advisory K.K., Tanizawa: The Tanizawa Sogo Appraisal Co., Ltd., Daiwa: Daiwa Real Estate Appraisal Co., Ltd.

(Note 3) Includes ¥1,849 million for acquisition of additional floor as of October 31 2017

(Note 4) Includes ¥21.6 million for acquisition of adjacent land as of September 9, 2022

(Note 5) For the overseas hotels, the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen. Moreover, the book value is calculated by subtracting the accumulated amount of depreciation from the total of acquisition price, acquisition cost and CAPEX. The payment in USD is converted in JPY using an exchange rate at the time of transaction.

Appraisal values for June 2022 FP and December 2022 FP are converted into JPY using the exchange rates of USD 1 = ¥ 136.68 and ¥ 132.70 respectively, which are the rates on closing date of each fiscal period

(Note 6) The amount of acquisition price, book value and appraisal value is rounded down to the nearest thousand yen. Percentages are rounded to one decimal place

Appraisal Value (2/4)

(Note 1) With regard to "increase / decrease", we calculate it excluding properties acquired / sold during the period

(Note 2) The names of the appraisers in the chart are abridged. Official names are as follows: Assets R&D: Assets Research and Development Inc., JREI: Japan Real Estate Institute, Morii: JLL Morii Valuation & Advisory K.K., Tanizawa: The Tanizawa Sogo Appraisal Co., Ltd., Daiwa: Daiwa Real Estate Appraisal Co., Ltd.

(Note 3) Includes ¥1,849 million for acquisition of additional floor as of October 31 2017

(Note 4) Includes ¥21.6 million for acquisition of adjacent land as of September 9, 2022

(Note 5) For the overseas hotels, the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen. Moreover, the book value is calculated by subtracting the accumulated amount of depreciation from the total of acquisition price, acquisition cost and CAPEX. The payment in USD is converted in JPY using an exchange rate at the time of transaction.

Appraisal values for June 2022 FP and December 2022 FP are converted into JPY using the exchange rates of USD 1 = ¥ 136.68 and ¥ 132.70 respectively, which are the rates on closing date of each fiscal period

(Note 6) The amount of acquisition price, book value and appraisal value is rounded down to the nearest thousand yen. Percentages are rounded to one decimal place

(Note 1) With regard to "increase / decrease", we calculate it excluding properties acquired / sold during the period

(Note 2) The names of the appraisers in the chart are abridged. Official names are as follows: Assets R&D: Assets Research and Development Inc., JREI: Japan Real Estate Institute, Morii: JLL Morii Valuation & Advisory K.K., Tanizawa: The Tanizawa Sogo Appraisal Co., Ltd., Daiwa: Daiwa Real Estate Appraisal Co., Ltd.

(Note 3) Includes ¥1,849 million for acquisition of additional floor as of October 31 2017

(Note 4) Includes ¥21.6 million for acquisition of adjacent land as of September 9, 2022

(Note 5) For the overseas hotels, the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen. Moreover, the book value is calculated by subtracting the accumulated amount of depreciation from the total of acquisition price, acquisition cost and CAPEX. The payment in USD is converted in JPY using an exchange rate at the time of transaction.

Appraisal values for June 2022 FP and December 2022 FP are converted into JPY using the exchange rates of USD 1 = ¥ 136.68 and ¥ 132.70 respectively, which are the rates on closing date of each fiscal period

(Note 6) The amount of acquisition price, book value and appraisal value is rounded down to the nearest thousand yen. Percentages are rounded to one decimal place

(Note 1) "Property number" refers to the asset owned by INV, classifying the residential asset as A, the office / commercial facility as B, the parking lot as C, the hotel as D according to the use of each property. The numbers with A, B, C, and D indicate the order of acquisition dates and properties with the same acquisition date are arranged in the order of acquisition price.

(Note 2) "Acquisition price" indicates the purchase price stated in real estate sales contract or trust beneficiary rights transfer agreement etc. In addition, the price does not include consumption tax, etc., and it discards less than 1 million yen. Acquisition price of Sheraton Grande Tokyo Bay Hotel is calculated by applying 178,458 units of preferred equity interest contribution by INV (equivalent to 49.0% of preferred equity interest) to the JV TMK which owns the trust beneficiary interest of the Sheraton Grande Tokyo Bay Hotel as an underlying asset. For "The Westin Grand Cayman Seven Mile Beach Resort & Spa" and "Sunshine Suites Resort", the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen.

(Note 3) "Investment ratio" is the ratio to the total acquisition price of INV, rounded down to the second decimal place.

(Note 4) "Rentable units" includes shops, offices and etc, which are counted as one unit by each compartment.

(Note 5) For D200 The Westin Grand Cayman Seven Mile Beach Resort & Spa and D201 Sunshine Suites Resort, the area subject to management contract are indicated.

(Note 6) Construction period for conversion (conversion of zoning) is indicated.

Property Number (Note 1)	Property Name	Address	Acquisition Date	Completion Date	Renovation Period (Hotel only)	Acquisition Price (JPY mn) (Note 2)	Investment Ratio (%) (Note 3)	Rentable Unit (Note 4)	Leasable Area (m ²) (Note 5)	Leased Area (m ²) (Note 5)	Total Number of Tenants	Occupancy Rate (%)

(Note 1) "Property number" refers to the asset owned by INV, classifying the residential asset as A, the office / commercial facility as B, the parking lot as C, the hotel as D according to the use of each property. The numbers with A, B, C, and D indicate the order of acquisition dates and properties with the same acquisition date are arranged in the order of acquisition price.

(Note 2) "Acquisition price" indicates the purchase price stated in real estate sales contract or trust beneficiary rights transfer agreement etc. In addition, the price does not include consumption tax, etc., and it discards less than 1 million yen. Acquisition price of Sheraton Grande Tokyo Bay Hotel is calculated by applying 178,458 units of preferred equity interest contribution by INV (equivalent to 49.0% of preferred equity interest) to the JV TMK which owns the trust beneficiary interest of the Sheraton Grande Tokyo Bay Hotel as an underlying asset. For "The Westin Grand Cayman Seven Mile Beach Resort & Spa" and "Sunshine Suites Resort", the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen.

(Note 3) "Investment ratio" is the ratio to the total acquisition price of INV, rounded down to the second decimal place.

(Note 4) "Rentable units" includes shops, offices and etc, which are counted as one unit by each compartment.

(Note 5) For D200 The Westin Grand Cayman Seven Mile Beach Resort & Spa and D201 Sunshine Suites Resort, the area subject to management contract are indicated.

(Note 6) Construction period for conversion (conversion of zoning) is indicated.

(Note 2) "Acquisition price" indicates the purchase price stated in real estate sales contract or trust beneficiary rights transfer agreement etc. In addition, the price does not include consumption tax, etc., and it discards less than 1 million yen. Acquisition price of Sheraton Grande Tokyo Bay Hotel is calculated by applying 178,458 units of preferred equity interest contribution by INV (equivalent to 49.0% of preferred equity interest) to the JV TMK which owns the trust beneficiary interest of the Sheraton Grande Tokyo Bay Hotel as an underlying asset. For "The Westin Grand Cayman Seven Mile Beach Resort & Spa" and "Sunshine Suites Resort", the book values as of May 9, 2019 when INV acquired the leasehold interest of the hotels directly is deemed the acquisition price of these properties, which are calculated using an exchange rate of USD1 = ¥110.45 fixed by the foreign exchange forward contract executed on July 26, 2018 denominated in Japanese Yen

(Note 3) "Investment ratio" is the ratio to the total acquisition price of INV, rounded down to the second decimal place

(Note 4) "Rentable units" includes shops, offices and etc. which are counted as one unit by each compartment

(Note 5) For D200 The Westin Grand Cayman Seven Mile Beach Resort & Spa and D201 Sunshine Suites Resort, the area subject to management contract are indicated

(Note 6) Construction period for conversion (conversion of zoning) is indicated.
