Repositioning of Portfolio

Sale of 7 Senior Housing Properties (May 22, 2014)

# of properties	7
Aggregate sales price	JPY 5,400 mn
Profit on sale	JPY 1,003 mn
Sales NOI yield ⁽¹⁾	5.74%

- Senior housing has relatively limited upside due to long term and fixed rent lease contracts
- Taking advantage of the increase in investment activity in the senior housing market, Invincible sold each property at an attractive cap rate, thus generating a profit on sale

Acquisition of 2 Limited Service/Extended Stay Hotels Located in Tokyo (May 23, 2014)

# of properties	2
Aggregate acquisition price	JPY 5,435 mn
Aggregate appraisal value	JPY 5,490 mn
Acquisition normalized NOI yield ⁽²⁾	6.01%

Hotel MyStays
Kanda, Tokyo

Hotel MyStays
Asakusa, Tokyo

- Focus on asset class with expanding market share in the hospitality market
- Increased demand from foreign and domestic tourists, as well as steady demand from business customers

Acquisition of quality assets with stable income and rent upside to promote internal revenue growth

(Note 1) The sales NOI cap rate was calculated based on 2013 NOI, sum of the 20th and 21st period NOI attributed to 7 senior housing properties of JPY 309.8 mn divided by the aggregate sales price.

(Note 2) The acquisition normalized NOI yield has been calculated by dividing the aggregate 2014 normalized NOI forecast for the two hotels at the time of acquisition by the aggregate acquisition price. The aggregate 2014 normalized NOI forecast assumes a hypothetical acquisition of the two hotels by Invincible immediately prior to the beginning of 1H/2014, and is based on (i) historical figures provided by FHM for the two properties from January through March 2014 (as adjusted to reflect an expected change in trust fees, management fees and insurance expenses upon the acquisition by Invincible), (ii) Invincible's forecasted figures for the remaining period (figures that are consistent with the assumptions used to calculate the forecast) and (iii) treating initial property-related taxes for the two hotels as if they were expensed and not capitalized.

Debt Refinancing (May 23, 2014)

- Refinanced Prudential LPS Loan at 2.50% interest with Syndicate Loan (B) at 0.95% interest⁽⁴⁾ (one-month JPY TIBOR + 0.80%)
- Further strengthened bank formation by adding Mizuho Bank and Sumitomo Mitsui Trust Bank as new lenders

(Note 5) Initial forecast for the 22nd fiscal period (1H/2014) announced in the financial summary dated February 26, 2014.

(Note 6) Total of the stabilized earnings per unit of the 22nd fiscal period (1H/2014) and 23rd fiscal period (2H/2014) announced in the press release dated June 23, 2014. Stabilized earnings per unit refer to earnings per unit calculated by first assuming the financial results for the fiscal period ending December 2014 and then eliminating the effects of such factors as one-time expenses related to public offering, acquisition of properties associated with it and refinancing, and treating all assets acquired during the 22nd fiscal period as if the acquisitions had occurred prior to the start of the fiscal period ending June 2014 (assumed that property taxes and city planning taxes are expensed from the beginning of the fiscal period ending June 2014).

Announced Implementation of Global Public Offering, Refinancing and Acquisition of Properties (June 23, 2014)

- Acquired 18 limited service/extended stay hotels using funds procured via public offering and borrowings
- Further reduced borrowing costs through debt refinancing and strengthened bank formation

Enhanced Unitholder Value through internal and external growth

Dividend

- Net income for the 22nd Fiscal Period outperformed initial forecasts⁽⁵⁾ by JPY 170 million (23%), increasing to JPY 901 million
- Distribution per unit exceeded initial forecasts⁽⁵⁾ by JPY 109 (23%), reaching JPY 573

22nd Fiscal Period (1H/2014)	Initial Forecast ⁽⁵⁾	Revision of Forecast (May 21, 2014)	Results

It merged with LCP Investment Corporation and changed its name to "Invincible Investment Corporation (IIC)" in February 2010. It started anew as a diversified REIT that invests in various properties, but with a focus on residential assets. In July 2011, a private share placement to Calliope GK, an affiliate of Fortress Investment Group LLC (Fortress). In addition, along with the change of the largest stockholder of its asset management company, Fortress became its sponsor. The sponsor Fortress has a portfolio of approximately 62.5 billion dollars globally as of the end of March 2014 and the size of its assets under management in Japan is over 300 billion yen, holding more than 30 hotels and residential properties, including projects currently under development, which total over 100 billion yen on an acquisition price basis.

With Fortress as its sponsor, IIC has drawn strength from "Fortress' network within and outside of Japan, and the relationship with banks" and aimed to strengthen the bank formation to center on megabanks while progressing restructuring of its portfolio. Refinancing of past borrowings lowered its average interest from 3.66% to 1.95%. Interest rate on borrowings reduced to 1.09% after refinancing associated with the acquisition of properties. With the acquisition of 2 properties – Hotel MyStays Kanda and Hotel MyStays Asakusa – for about 5.4 billion yen and sale of 7 elderly care facilities for about 5.4 billion yen in May 2014, it made an upward revision to the distribution per unit for the fiscal period ending June 2014 from 464 yen to 550 yen.

IIC said "it has shown clear growth strategies including increasing investments to hotels" and it was viewed positively by the market and the investment unit price, which was 18,000 yen as of May 21 rose about 40% up until the board decided the public offering.

IIC announced the acquisition of 18 limited service hotels (planned acquisition price: 39.9 billion yen; appraisal value: 40.3 billion yen; NOI yield: 6.30%) in line with its growth strategy and changed its investment guidelines in order to add hotels to its core assets. Many institutional investors voiced positive notes including the one that said "it is based on the favorable market environment surrounding." The average NOI yield of the acquired properties is above that of the existing portfolio which is 5.15% and a person involved says "the fact that it was able to acquire properties with fairly stable yield was also recognized." As Invincible Investment Corporation says "after Fortress acquired the properties, it had raised the occupancy rates through measures that included conducting ongoing renovations and improving operations," the average guest room occupancy rates, which were 84.7% in 2013 rose to 89.2% during the period from the beginning of 2014 to the end of April IIC that "the average daily room rate (ADR) is 6,673 yen, we will aim to increase the room rate."

IIC has concluded a memorandum regarding preferential negotiation rights to acquire 26 limited service hotels in May 2014 and 18 properties acquired this time are included in the target properties of the memorandum. It has once again concluded a memorandum concurrently with the resolution and additionally acquired preferential negotiation rights for 22 properties. The person involved says that "it concluded the memorandum to dispel concern the sponsor is a fund and such commitment was favorably received by the investors." As an investment trust indicates that "things have changed after Fortress joined as a sponsor. We had high interest in the REIT but we could not buy it due to liquidity issues," there are moves towards aggressively incorporating the REIT into the investment universe. A domestic investment trust says that "further decrease in debt cost through refinancing is expected and also the pipeline is rich" and there are also opinions such as another institutional investor says "it is a REIT at which everything is starting to work well" and a person involved said that "there is no downside."

Three teams visited around 50 firms each in Japan and overseas between June 25 and July 4. They also held large meetings twice during that period. It reduced domestic retail investors' portion from 40% to 35%, shifting the 5% to overseas institutional investors. As a result, 50% of the shares offered was allocated to overseas investors and remaining 15% was allocated to domestic institutional investors. A person involved in the deal said domestic retail book was eight-times oversubscribed, while domestic institutional investors' book was more than twice oversubscribed and overseas investors' seven times. The overall book was seven times oversubscribed. Another person involved said that participants include overseas real estate specialists, long-only investors, domestic J-REIT specialized funds and investor classes were similar to those of J-REITs with biggest market capitalization.

After the pricing on July 9, the investment unit price rose by 16.5% over 2 business days, which an institutional investor pointed out that "investors whose allocation wasn't enough are purchasing." There are also voices heard such as a person involved says "with the existence of the memorandum, the total market capitalization of 100 billion yen is on the verge. IIC might have become a brand that in which investors didn't want to miss out." IIC will utilize the successful capital increase as a step to the next offering, and work to promptly achieve an asset size of 200 billion yen.

(Note 1) Calculated based on the actual results from July 1, 2013 to June 30, 2014.
 • “Room Occupancy Rate” is calculated using the following formula: room occupancy rate = total number of rooms occupied during the relevant period ÷ (aggregate number of rooms during the relevant period x number of business days during target period)
 • “ADR,” or Average Daily Rate, is the value of the total room sales for a certain period (excluding service fees) divided by the total number of sold rooms for the same period.
 • “RevPar,” or Revenues Per Available Room, is calculated by dividing the total sales for a certain period by the aggregate number of rooms for the same period (rooms x number of days), and is the same figure as that of a product of room occupancy rate multiplied with ADR.
 • “NOI yield” is calculated by dividing actual NOI for the concerned period by the aggregate acquisition price.

Corporate Contract Rate
(Jan.-Jul. 2014)

(Note 1) As to "ADR" and "RevPAR", please refer to page 11.

(Note 2) "GOP", Gross Operating Profit, is the amount equivalent to gross revenue of hotels minus various expenses related to hotel operations (staff cost, cost of materials and utilities, advertisement cost, and other expenses) and management fees for operators, and is the amount which INV recognizes as rental revenues of hotels. Further, "GOP Margin" is calculated by dividing GOP by gross revenue.

(Note 3) Calculated based on actual results from May 1, 2014 to July 31, 2014.

(Note 4) The breakdown of Daily/Weekly/Monthly visitors is based on gross revenue.

Daily/Weekly/Monthly are defined as Daily=1-6, Weekly=7-29, Monthly=over 30 night stays basis. Hotel Vista Premio Dojima is excluded from the calculation due to lack of Daily/Weekly Monthly data.

(Note 5) Actual overseas sales are gross revenue via overseas online agents.

(Note 6) Figures for Jan.-May. 2014 are provisional figures, and figures for Jun.-Jul. 2014 are estimated figures.

(Note 7) For the details, please refer to page 18. Further, Hotel Vista Premio Dojima is operated by a third-party operator.

Lease contracts to capture rent upside

- Fixed rent to be determined for individual hotel
- In principle, MyStays Hotel Management Co., Ltd. ⁽⁷⁾ receives 2% of sales and 4-6% of GOP as management fees and 6% of sales on direct bookings through its corporate marketing and via its own website as customer transfer fee.

Fundamentals Driving Demand for Hotel Sector

- Business hotel occupancy rates at all time highs
- Airport capacity expansion
- Both domestic and inbound tourism increasing
- New hotel supply on the decline
- Growth of Low Cost Carriers (LCCs)
- Government efforts to increase foreign visitors

Revision of Investment Guidelines

Revision of Portfolio Construction Policy

In order to construct a portfolio focused on both improved stability and future growth, hotels were added to core assets investment target

Revision of Distribution Policy

Decided to consider making distributions in excess of profits in order to stabilize distributions and be more reflective of the stabilized earnings in cases where significant expenses are to be recorded in connection with, among other things, the acquisition of assets or the raising of capital, and leading to a significant decrease in earnings.

Allocation Ratio by Property Type

INV will consider making excess profit distribution in the following events, and will, in principle, not make excess profit distribution in other circumstances.

- To satisfy the requirements under the Special Taxation Measures Act, in case the distributable amount is less than 90% of distributable income.
- To stabilize distributions in cases where significant expenses are to be recorded in connection with, among other things, the acquisition of assets or the raising of capital, and the distribution amount is expected to decrease significantly.

Allocation Ratio by Geography

Area	Specific Area	Allocation Ratio (based on acquisition value)
Greater Tokyo Area	Tokyo, Kanagawa, Chiba and Saitama Prefectures	65% or above (or 70% or more excluding hotels)
Major Regional Cities	Areas surrounding the Greater Tokyo area and major cities nationwide including ordinance designated cities and their surrounding areas	Less than 35% (or less than 30% excluding hotels)
