1. Overallotment Secondary Offering and related matters

- (1) Taking into consideration the level of demand and other factors in the Domestic Public Offering, one of the Domestic Underwriters (the “Selling Domestic Underwriter”) may conduct a secondary offering in Japan of Investment Units, using a maximum of 25,000 units to be borrowed from Calliope, a holder of Investment Units (the “Overallotment Secondary Offering”). The above number of Investment Units to be offered in the Overallotment Secondary Offering is the maximum number of Investment Units for the secondary offering. Depending on the level of demand and other factors, such number of Investment Units to be offered may decrease, or the Overallotment Secondary Offering itself may not take place at all.

In relation to the Overallotment Secondary Offering, INV’s Board of Directors Meeting, held on June 25, 2015, adopted a resolution to issue 25,000 new Investment Units through a third-party allotment to the Selling Domestic Underwriter, with August 12, 2015 as the payment date, for the purpose of allowing the Selling Domestic Underwriter to acquire investment units required for returning the borrowed investment units.

Additionally, during the period from the date following the last subscription period date for the Domestic Public Offering and the Overallotment Secondary Offering until August 7, 2015 (the “Syndicate Cover Transaction Period”), the Selling Domestic Underwriter may purchase, on the Tokyo Stock Exchange, Investment Units in a quantity up to the number of Investment Units offered in the Overallotment Secondary Offering for the purpose of returning the Borrowed Units (such purchases, each a “Syndicate Cover Transaction”). All the Investment Units purchased by the Selling Domestic Underwriter through such Syndicate Cover Transactions will be used for returning the Borrowed Units. During the Syndicate Cover Transaction Period, the Selling Domestic Underwriter may, based on its own judgment, not carry out any Syndicate Cover Transactions or may conduct Syndicate Cover Transactions in an amount less than the number of Investment Units offered in the Overallotment Secondary Offering.

In addition, the Selling Domestic Underwriter may engage in stabilizing transactions in connection with the Domestic Public Offering and the Overallotment Secondary Offering, and may use all or part of the Investment Units purchased through such stabilizing transactions to return the Borrowed Units.

As for the number of investment units to be determined by subtracting the number of investment units purchased through the Syndicate Cover Transaction and stabilizing transaction, to be used for returning the borrowed investment units, from the number of investment units offered in the overallotment secondary offering, the Domestic Underwriter intends to acquire such number of Investment Units through accepting the allotment under the Third-Party Allotment.

Consequently, there may be cases where there will be no subscription for whole or part of the investment units to be issued through the Third-Party Allotment, resulting in a commensurate shortfall in the ultimate number of investment units to be issued through the Third-Party Allotment, due to forfeiture, or there may be cases where such issuance itself will not take place at all.

- (2) The transactions described above will be conducted by the Selling Domestic Underwriter upon consultation with the other domestic joint lead managers.

The securities referred to above have not been, and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”). The securities referred to herein will not be publicly offered or sold in the United States. The contemplated transaction does not involve any public offering of securities in the United States.

2. Change in the number of Investment Units outstanding after the issuance of the new Investment Units

Current number of Investment Units outstanding	2,668,686	
Increase in the number of Investment Units outstanding due to the issuance of new Investment Units through the Offerings	500,000	
Total number of Investment Units outstanding after the issuance of new Investment Units through the Offerings	3,168,686	
Increase in the number of investment units outstanding through the issuance of new investment units through the Third-Party Allotment	25,000	(Note)
Total number of investment units outstanding after the issuance of new investment units through the Third-Party Allotment	3,193,686	(Note)

(Note) Represents the case where the Domestic Underwriter has applied for all the investment units to be issued through the Third-Party Allotment, resulting in the issuance of such investment units

3. Objective and rationale for the issuance

After considering the market conditions and other factors, INV decided to issue new Investment Units with the objective of achieving higher portfolio returns, increased financial stability and continuous growth of distributions per unit, through the acquisition of new specified assets (these assets fall under the category of such asset as set forth in Article 2, Paragraph 1 of the Act on Investment Trusts and Investment Corporations).

4. Amount of funds to be raised, use of proceeds and scheduled timing of expenditure

- (1) Amount of funds to be raised (estimated net proceeds)
Up to JPY 25.8 billion (Note)

(Note) Amount of funds to be raised (estimated net proceeds) (JPY 25.8 billion) = total amount of proceeds from the Domestic Public Offering (JPY 11.7 billion), the Overseas Offering (JPY 12.9 billion) and maximum proceeds from the issuance of new investment units through the Third-Party Allotment (JPY 1.2 billion). The above figures are the estimates calculated based on the closing price of the ordinary trading at Tokyo Stock Exchange on June 18, 2015.

- (2) Specific use of proceeds and scheduled timing of expenditure
INV will use the proceeds from the Domestic Public Offering (JPY 11.7 billion) and the Overseas Offering (JPY 12.9 billion) to fund its acquisition of new specified assets announced in "Notice concerning Acquisition of Assets and Entering into Leasing Contract" dated today. The maximum proceeds from the issuance of new investment units through the Third-Party Allotment (JPY 1.2 billion) will be retained as cash reserve to fund for the future acquisitions.

(Note) The above figures are the estimates calculated based on the closing price of the ordinary trading at Tokyo Stock Exchange on June 18, 2015.

5. Designation of allottee

Not applicable

6. Others (Restrictions on sale and additional issuance)
- (1) With respect to the Global Offering, Calliope and Rayo Godo Kaisha shall reach an agreement not to sell, without prior written consent of the joint global coordinators, any Investment Units held since before the Global Offering, during the period from the Issue Price Determination Date to a date 90 days from the delivery date (except for Calliope where investment units are lent to a Domestic Underwriter for the purpose of Secondary Offering by the Overallotment).
 - (2) With respect to the Global Offering, INV shall reach an agreement not to issue, without prior written consent of the joint global coordinators, any Investment Units during the period from the Issue Price Determination Date to a date 90 days from the delivery date (except for the issuance of Investment Units through the relevant offering, the Third-Party Allotment and investment unit split).
 - (3) For (1) and (2) above, the joint global coordinators retain the right to terminate part or all of the aforementioned agreement and to shorten the relevant restriction period.
