(Note 5) Amounts are rounded down to the nearest million yen; hereinafter the same.

2. Reasons for Acquisitions

Consistent with its strategy, INV decided to acquire the Five Properties (four hotel properties and one residential property) due to their revenue generating capability, overall market conditions and other factors that will contribute to the further stability and growth opportunities for its portfolio.

This English language notice is a translation of the Japanese-language notice released on March 10, 2016 and was prepared solely for the convenience of, and reference by, non-Japanese investors. It is not intended as an inducement or solicitation for investment. We caution readers to undertake investment decisions based on their own investigation and responsibility. This translation of the original Japanese-language notice is provided for informational purposes only, and no warranties or assurances are given regarding the accuracy or completeness of this English translation. INV, which had acquired eleven limited service hotels and three residential properties as of July 16, 2015 in connection with the global offering the payment date of which was July 15, 2015 (the “Previous Public Offering”), acquired three limited service hotels on August 28, 2015 and then five limited service hotels and one residential property on January 22, 2016.

The four hotel properties to be acquired (the “Four Hotel Properties”) are expected to make contributions to further growth in portfolio revenues, while the one residential property to be acquired to stabilize the income from the portfolio. Three out of the Four Hotel Properties are operated by MYSTAYS HOTEL MANAGEMENT Co., Ltd. (“MHM”), an experienced hotel operator affiliated with the sponsor with extensive capabilities, and the remaining one hotel is operated by its subsidiary.

The four hotels to be acquired have a solid track record as represented by key performance indicators in 2015 including ADR (average daily rate) of 14,623 yen (6.9% year-on-year growth), average occupancy rate of 91.7% (6.3 points year-on-year growth).

(Note) Based on the data of three hotels out of four hotels to be acquired (excluding Hotel MyStays Gotanda Station, which partially closed because of renovation in 2015)

The residential property INV will acquire is a relatively new property built in 2007 and has 243 units in total, consisting of several types of rooms tailored to a wide variety of needs from families and DINKS households. The Properties located in Tokyo 23 Wards account for 68.5% of the residential portfolio. The Properties located in Tokyo 23 Wards account for 68.5% of the residential portfolio. The residential property is expected to make contributions to mid- and long-term stable revenues as it is also primarily consisted of rooms with the rent of less than 150,000 yen, which are in high demand.

Residential Portfolio Composition by Geography

Residential Portfolio Composition by Rent Size

(Note 1) Based on 68 residential properties, including one to be acquired.

(Note 2) Based on the amount of monthly rents added by common service fees as of December 2015.

It is expected that appraisal NOI yield of the Five Properties and the anticipated portfolio (122 properties) will be at 5.5% and 6.6%, respectively.

INV will continue to position hotels and residential properties as its core assets and pursue both growth

(Note 2) Office buildings, commercial facilities and parking lots are included.

3. Execution of Lease Contracts

In regards to three out of the Four Hotel Properties, INV will enter into a lease agreement with MHM, as well as another lease agreement with Naqua Hotels & Resorts Management Co., Ltd. ("Naqua") for Hotel Epinard Nasu. Lease agreements of all four hotel properties contain a significant variable rent

component based on gross operating profit, or GOP.

Based on such lease agreement with variable rents, INV will be able to take advantage of potential growth from the hotel operating income after deducting related costs and retains by the tenants. In GOP upward trend situations, INV could benefit from the growth in GOP by receiving most of the upside in GOP based on such variable rent scheme, which could boost profits of INV through the relative high profit margin. When GOP in downward trend, INV could take advantage from the fixed part of the rent scheme to protect itself from further loss.

9 residential properties on June 25, 2015, respectively.

In addition, INV renewed the previous MOU and entered into a new MOU on January 20, 2016 with Fortress-related SPCs in regards to preferential negotiation rights over a total of 34 hotels (with ten new hotels added to the 24 hotels except the 6 hotels that were already acquired). In addition, the MOU was renewed again on March 10, 2016 to add 2 more hotels (Art Hotels Hamamatsucho and Art Hotels Omori) (the "March 2016 MOU"). Under the March 2016 MOU, effective March 10, 2016 through March 9, 2017, the SPCs are obligated to provide INV an opportunity to have a good faith discussion with respect to the sale of any property covered by the March 2016 MOU, if the SPC plans to sell such property, before the SPC informs other potential buyers. Refer to the list below of properties covered by March 2016 MOU.

INV will continue to seek to utilize Fortress's potential pipeline support to achieve substantial external growth through accretive growth opportunities, based on the preferential negotiation rights over 24 hotels (6,454 rooms) and 9 residential properties (743 units) granted from the sponsor under the March 2016 MOU.

5. Details of Assets to be Acquired

(1) Details of the Five Properties

Details, profit and loss status and outline of appraisal reports of the five properties to be acquired are as follows:

- a. “Type and Location of Specified Assets, etc.” column:
 - “Date of Planned Acquisition” shows the date when an acquisition is executed, which is specified in the trust beneficiary right sales agreement.
 - “Purchase Price or Planned Purchase Price” shows a purchase price of an anticipated acquisition which is specified in the trust beneficiary right sales agreement; Consumption tax is not included, and rounded down to the nearest million yen.
 - “Appraisal Value” shows reported price by appraisal agency for anticipated acquisitions.
 - The details in “Location” (excluding address), “Lot Area,” “Structure/No. of Stories,” “Total Floor Area,” “Purpose of Use,” and “Construction Date” are as shown in the property registry. The “Total Floor Area” is the gross floor area, and with respect to “Purpose of Use,” the primary class shown in the property registry is listed. Further, the “Construction Date” lists the time at which it was newly constructed, as shown in the property register.
 - “Transportation” shows the time to walk to the nearest station based on the description in the Real Estate Appraisal Report (in case there is no description of time distance in the Real Estate Appraisal Report, “Transportation” is calculated by assuming walking time on the road distance of 80 meters per minute in accordance with the Fair Competition Code on the Real Estate Representations (Fair Trade Commission Notification No.2 of 2003, including subsequent revisions)(hereinafter, referred to as the “Fair Competition Code”) and the Ordinance for Enforcement of the Fair Competition Code.
 - In “Zoning,” the class of zoning under Article 8(1)(i) of the City Planning Act is listed.
 - In “Building Coverage Ratio,” the ratio of a building’s area with regard to the land area as set forth under Article 53 of the Building Standards Act is listed.
 - In “Floor Area Ratio,” the ratio of a building’s floor area with regard to the land area as set forth under Article 52 of the Building Standards Act is listed.
 - In “Trustee,” the planned trustee at the time of INV’s acquisition of the assets for anticipated acquisitions is listed.
 - In “Trust Period,” the planned trust period at the time of INV’s acquisition of the assets for anticipated acquisitions listed.
- b. “Lease Overview” column:
 - January 31, 2016 is used as the basis.
 - In “Number of Guest Rooms,” the number of guest rooms that can be sub-leased by tenants is listed.

This English language notice is a translation of the Japanese-language notice released on March 10, 2016 and was prepared solely for the convenience of, and reference by, non-Japanese investors. It is not intended as an inducement or solicitation for investment. We caution readers to undertake investment decisions based on their own investigation and responsibility. This translation of the original Japanese-language notice is provided for informational purposes only, and no warranties or assurances are given regarding the accuracy or completeness of this English translation. Readers are advised to read the original Japanese-language notice. In the event of any discrepancy between this translation and the Japanese original, the latter shall prevail in all respects.

- “Total No. of Tenants” is calculated by counting a lessee who has directly concluded a lease agreement for each property as one tenant, and a tenant who has rented two or more rooms in a single property is calculated as one tenant. In case of subleasing of property in which a lessee subleased rooms to end tenants and the seller, may be the owner, INV, or the trustee concluded the “pass-through” form of lease contract without rent guarantee, total No. of tenants is the total number of end tenants.
- In “Leasable Area,” which means the total leasable floor area for each building, the leasable area listed in the lease contract and diagram for the property, excluding the leasable area of the land (level parking lot), is listed.
- In “Lease Area,” which means the total leased floor area for each building out of the total leasable floor area, the leased area into which a leasing agreement has actually been entered into and has been leased to an end-tenant, those listed in the lease contract, excluding the leased area of the land, is listed.
- In “Occupancy Rate,” the ratio of the leased area to the leasable area is shown, rounded to the first decimal place.
- “GOP,” or the gross operating profit, is the amount remaining after deducting the personnel, material, water, electricity and heating and advertising expenses for the hotel operations from the hotel's revenues.
- c. “Overview of Lease Agreement” column:
 - Based on the lease contract entered into with the tenant
 - In “Determination of rent of lease contract,” monthly rent amount is rounded down to nearest ten thousand yen, and annual rent is rounded down to nearest one million yen.
 - The “management services fee” is a commission fee payable to the tenant in accordance with the provisions of the leasing contract as a compensation for operational service provided by a tenant under the agreement. The management services fee is not disclosed, as tenant's consent has not been obtained for disclosure. However, for MHM, an amount of the management services fee to be received is generally (i) an amount equal to 2% of monthly sales, (ii) an amount equal to 0-6% of monthly sales from direct bookings made through the MHM's marketing department or website, and (iii) an amount equal to 4-6% of the monthly GOP after deducting the amounts of (i) and (ii) above.
 - In “Security Deposit/Guarantee Money,” the amount of the security deposit/guarantee money after amortization pursuant to the lease contract is listed.
- d. “Overview of Building Conditions Survey Report” column:
 - For the anticipated acquisitions, INV has received a report from Tokio Marine & Nichido Risk Consulting Co., Ltd. and Tokyo Building – Tech Center Co., Ltd., on building conditions survey, building deterioration survey, short- and long-term repair plan decision, a condition survey in compliance with the Building Standards Act, a survey of dangerous substances contained in a building, and soil survey, amongst others, and has provided an overview of the report in this column. Further, an earthquake risk analysis has been conducted and reported to INV by Tokio Marine & Nichido Risk Consulting Co., Ltd., and an overview of the report is listed in this column.
 - “Probable Maximum Loss (PML)” means the probable maximum loss from an earthquake.

There is probable maximum loss (PML) for individual properties and for portfolios as a whole.

This English language notice is a translation of the Japanese-language notice released on March 10, 2016 and was prepared solely for the convenience of, and reference by, non-Japanese investors. It is not intended as an inducement or solicitation for investment. We caution readers to undertake investment decisions based on their own investigation and responsibility. Readers are advised to read the original Japanese-language notice. In the event of any discrepancy between this translation and the Japanese original, the latter shall prevail in all respects.

Though there is not a strict, uniform definition for probable maximum loss (PML), in this press release, it means to what extent damages would be borne from the largest-scale anticipated earthquake in the anticipated planned term of use (50 years) (a large earthquake that has a reoccurrence period of 475 years = a large earthquake with a roughly 10% chance of occurring in 50 years), as indicated by the percentage (%) of the replacement price for planned recovery costs from damage.

- “Replacement Price” means the total amount of the appropriate costs needed in the event that the appraised building is to be rebuilt at the time of the survey.
- “Short-term Repair Costs” indicates the repair and/or replacement costs for items which, at the time of the survey, are below minimum maintenance level due to deterioration or items which are in violation of law or regulations, etc. and which can be judged as best to be repaired or replaced within one year.
- “Long-term Repair Costs” consist of capital expenditures and repair costs. Capital expenditures means, of the anticipated improvement costs necessary to maintain the building at the set building functionality level, the costs to extend the use period of the building’s equipment or to replace it entirely. Repair costs means, of the anticipated improvement costs necessary to maintain the building at the set building functionality level, costs other than capital expenditures.
- e. Descriptions in the “Area Characteristics, etc.” field
Descriptions in the “Area Characteristics, etc.” field are an abstract or summary of descriptions in the Real Estate Appraisal Report on each real estate or real estate in trust, prepared by appraisal agencies, or created by referring to such descriptions.
- f. Descriptions in the “Special Matters”
Descriptions in the “Special Matters” fields are matters that are deemed important in consideration of their impact on rights, appraisal value, profitability and disposability of each asset acquired after the end of the 24th period or anticipated to be acquired.

<Explanation relating to overview of the status of income and expenses and real estate appraisal of the Six Properties>

- g. “Income and Expenditures, Etc.” column:
 - Based on the information provided from the sellers for each operating period from January 1, 2014 to December 31, 2015. This is not a guarantee of future income and expenditures.
 - Amounts are rounded down to the nearest 1,000 yen. Therefore, the figures may not necessarily match the total value when added together. Unless otherwise specifically noted, the amounts do not include consumption tax, etc.
 - “Taxes and Public Dues,” which include property tax and city planning tax, are generally imposed on the owner on January 1 of each year. For property tax and city planning tax that were borne by the current owner or previous owner at the time of INV’s acquisition of the assets, the estimated amount is included in the acquisition price, and is therefore not included in “Taxes and Public Dues.”
 - “Non-life Insurance Premiums” is the total amount of paid insurance premiums distributed proportionally over the relevant period.

- “NOI” (Net Operating Income) lists the actual figures as provided by the seller (following the adjustments for the trust fees, administration fees and insurance premiums when held by INV).
- “Room Income” includes room use fees and lease fees.
- “Other Income” includes items such as parking lot use fees, laundry fees, vending machine transaction fees, etc. which do not fall under “Room Income”.
- “ADR,” or Average Daily Rate, is the value of the total room sales for a certain period (excluding service fees) divided by the total number of sold rooms for the same period.
- “RevPAR”, or Revenues Per Available Room, is calculated by dividing the total sales for a certain period by the aggregate number of rooms for the same period (rooms x number of days), and is the same figure as that of a product of room occupancy rate and ADR.
- “Room Occupancy Rate” is calculated using the following formula:

$$\text{room occupancy rate} = \frac{\text{total number of rooms occupied during the relevant period}}{(\text{aggregate number of rooms during the relevant period} \times \text{number of business days during target period})}$$
- “GOP Ratio” is calculated using the following formula:

$$\text{GOP ratio} = \frac{\text{GOP}}{\text{sales figure}}$$
- “Daily / Weekly / Monthly” is the ratio for each classification of length of stay (i.e., daily/weekly/monthly), and is calculated by dividing total room sales for the relevant classification during each operational period by the aggregate room sales for the same operational period and then multiplying the figure by 100. Daily, weekly and monthly are classified by the number of days of stays, with daily being 1-6 nights, weekly being 7-29 nights, and monthly being 30 or more nights.

h. “Summary of Real Estate Appraisal Report” column:

INV has requested real estate appraisal from Morii Appraisal & Investment Consulting, Inc. for the planned acquisition assets based on the matters for consideration in a real estate appraisal under the Investment Trust Act, the Act on Real Estate Appraisal (Act No. 152 of 1963, as amended; the “Act on Real Estate Appraisal”) and the real estate appraisal standards. An appraisal value of a property is merely an opinion of the real estate appraiser regarding the value of the appraised property at the time the appraisal was conducted in accordance with the Act on Real Estate Appraisal and real estate appraisal standards. A real estate appraisal is neither a guarantee nor a promise that an asset can be sold or purchased at such appraisal value either now or in the future.

The property is a business hotel located one minute on foot from Gotanda Station on the JR line/the Toei Asakusa Line and three minutes on foot from Gotanda station on the Tokyu Ikegami Line. It has excellent access to the major business districts such as Tokyo Station and Shinjuku Station in 15 minutes as well as convenient access to Haneda Airport in approximately 40 minutes. As it is located near Shinagawa Station, which is Shinkansen stop and one of major terminal stations, the property can accommodate both of business demands and leisure demands. It completed full renovation which made the property stylish and modern one in November 2015 and achieved 94.5% occupancy in December 2015, right after the renovation. Considering good access to popular areas among foreign tourists such as Ikebukuro, Shinjuku, Akihabara and Asakusa, further increase of leisure demands can be expected.				
Special Instructions

Area Characteristic				
The property is a relatively new business hotel completed in 2008. The property is located six minutes on foot from Hamamatsucho Station on the JR Line and Monorail Hamamatsucho station (connects to Haneda Airport via the monorail) on the Tokyo Monorail Line, and two minutes on foot from Daimon Station on the Toei Asakusa Line and Toei Oedo Line. It is adjacent to business districts such as Shiodome, headquarter of ANA, Dentsu and Softbank, and has a convenient access to other major business districts such as Tokyo Station (six minutes by train) as well as Shinagawa Station (five minutes by train). As it has a good access to Haneda Airport in 19 minutes, the property can accommodate both of business demands and leisure demands. Convenient location in proximity to popular tourism destinations such as Akihabara and Asakusa can make the performance stable throughout the year because of high demand. Potential of increasing demand from extension of monorail or redevelopment in surrounding areas near Hamamatsucho station can be expected.

Judged that a value based on the direct capitalization method, which truly replicates the price formation process from an income perspective, is more persuasive and adopted the appraisal value determined using the direct capitalization method, with the cost approach value as a reference		

(2) Matters relating to Seismic Resistance etc. for the Five Properties

With respect to the buildings of Hotel Epinard Nasu and Royal Parks Shinden, INV has obtained an opinion from a third party expert, Tokio Marine & Nichido Risk Consulting Co., Ltd., indicating that, there is no suspicion of falsification of structural calculation sheets through willful misconduct of the designers, and that the structural design is judged to be in general compliance with provisions regarding seismic resistance under the Building Standards Act and its Enforcement Order. With respect to the building of Hotel MyStays Fukuoka Tenjin, INV has obtained an opinion from Tokyo Building-Tech Center Co., Ltd, indicating that, there is no suspicion of falsification of structural calculation sheets and the calculation route was appropriate; allowable stress design (first design) and possession horizontal proof stress calculation (second design) have satisfied requirements. With respect to the building of Hotel MyStays Hamamatsucho, INV has obtained an opinion from SD Network Co., Ltd, indicating that, the design was with proper standard, there is no suspicion of falsification of structural calculation sheets, and there is no concerns over structural design. With respect to the main building of Hotel MyStays Gotanda Station, which was designed under the old seismic code (Note 1), seismic reinforcement works were carried out in August 2015. The annex building of Hotel MyStays Gotanda Station was designed under new seismic code (Note 2), and INV has obtained an opinion from K.K. Aki Architect, indicating that, there is no concerns over the seismic resistance functionality.

As a part of due diligence (Note 3) routine, INV conducts investigation on seismic risks for new acquisitions.

(Note 1) Old seismic code refers to the seismic resistance standards in regard to building design, which was applied in construction certification till May 31, 1981.

(Note 2) New seismic code refers to the seismic resistance standards in regard to building design, which was applied in construction certification after May 31, 1981, and in consistency with Building Standards Act and its Enforcement Order, implemented in 1981. Within the Five Properties, all buildings were certified under the new seismic code except for the main building of D43 “Hotel MyStays Gotanda Station”.

(Note 3) The due diligence conducted includes examination of appraisal values, building inspection, seismic risk inspection and legal due diligence.

7. Transactions with Interested Persons etc.

The sellers of the Five Properties, namely Tsuki TMK, Septentrio TMK, Septentrio2 TMK, Septentrio3 TMK, Navaro TMK, Boreas TMK and Momo TMK (Navaro TMK is a seller of two properties, and each of the others is a seller of one property), are not Sponsor-related persons^(Note) under the voluntary rules specified by CIM as countermeasures against conflicts of interests in the management of INV’s investments. However, such sellers have received tokumei kumiai contributions through funds managed by affiliates of FIG, an affiliate of Calliope, CIM’s parent company, and thus a Sponsor-related person. Therefore, CIM treats the sellers as persons equivalent to sponsor-related persons.

The Five Properties are to be acquired at prices not exceeding their appraisal value in accordance with Sponsor-Related Person Transaction Rules and Sponsor-Related Person Transaction Management Manual, which are internal rules of CIM, and after deliberation and resolution of the compliance committee meeting held on March 10, 2016 and the investment committee meeting held on the same day, the board of directors of CIM approved the acquisitions at the meeting held on March 10, 2016, and the board of directors of INV approved the acquisitions at the meeting held on March 10, 2016.

In addition, MHM (including its subsidiary, Naqua), the tenant/operator of the Four Hotel Properties is not a Sponsor-related person^(Note) under the voluntary rules specified by CIM as countermeasures against conflicts of interests in the management of INV’s investments. However, each tenant is an affiliate of FIG, which is an affiliate of Calliope (Calliope is CIM’s parent company, and thus a Sponsor-related person). Therefore, CIM treats, MHM (including its subsidiary, Naqua) as a person equivalent to a Sponsor-related person.

In accordance with Sponsor-Related Person Transaction Rules and Sponsor-Related Person Transaction Management Manual of CIM and following the deliberation and resolution of the compliance committee meeting and the investment committee meeting both held on March 10, 2016, the boards of directors of CIM and INV each approved the lease agreements expected to be entered into with MHM (including its subsidiary, Naqua) at meeting both held March 10, 2016, subject to hotel operating

capability of MHM (including its subsidiary, Naqua) being confirmed as sufficient through a third party report and other relevant information, the rent level of each of the four hotel Properties being reasonable considering the market level, and management services fee amount and structure being fair compared with similar properties.

Therefore, INV considers MHM (including its subsidiary, Naqua), as conforming to the tenant selection policy, which was stated in the “Report on Management Structure and System of the Issuer of Real Estate Investment Trust Units and Related Parties” submitted on March 30, 2015.

(Note) A Sponsor-related Person is (i) any person who falls under the “Interested Persons, etc.” set forth in the Investment Trust Act and the Enforcement Order of the Investment Trust Act, (ii) all shareholders of CIM and (iii) special purpose companies (tokubetsu mokuteki kaisha) (a) which delegate their management to persons who fall under (ii) above, or (b) which are invested by or invested in anonymous partnership (tokumei kumiai) by persons who fall under (ii) above.
